### **BLAST FURNACE**

Translated by Ko Tai Suk  
22.2 X 15.1 cm., 400 pp. 2,000 copies  
Estimated price: 225 won

Written for engineers, technicians and skilled workers on the basis of the experiences gained by the Soviet smelters over a long course of years, this book describes in detail about the organization of work and standard operation in blast furnace shop.

It will also be a good reference book for the students of higher educational establishments and technical students who are making special study of engineering.

No. 9 1958 (1) Copies wanted . . . . .

### **HIGH-SPEED ELECTRO-STEEL MANUFACTURING**

Translated by Kim Jong Sung  
18.7 X 12.7 cm 176 pp. 2,000 copies  
Estimated price: 70 won

Written for ordinary and skilled workers in steel foundry, this booklet deals with the questions of how to reduce smelting hour by rationally organizing work and introducing advanced working methods into each of electro-steel manufacturing.

No. 9 1958 (2) Copies wanted . . . . .

### **CONTINUOUS STEEL SMELTING**

By Kwak Dai Hong  
18.7 X 12.7 cm 150 pp. 2,000 copies  
Estimated price: 46 won

This book deals with the advanced steel smelting which holds weighty significance for the technicians, managerial workers of our country and students concerned.

No. 9      1958 (3)      Copies wanted . . . . .

#### **RARE METALS**

18.7 X 12.7 cm      134 pp.      1,000 copies  
Estimated price: 37 won

This book gives an outline of how rare metals, which hold special position in current technical problems, are employed for development of the national economy.

It will be of great help for the technicians engaged in various fields of the national economy and for the readers interested in this line.

No. 9      1958 (4)      Copies wanted . . . . .

#### **TECHNICAL INSPECTION METHOD**

Translated by Li Hoo Sam  
22.2 X 15.1 cm      400 pp.      1,500 copies  
Estimated price: 158 won

This book tells in detail technical inspection of raw materials and operation in every process of work in metal foundry.

No. 9      1958 (5)      Copies wanted . . . . .

#### **HANDBOOK ON THE STATE STANDARD AND TECHNICAL CONDITIONS OF FERROUS-METALS Vol. 1**

Translated by Kim Ji Moon  
22.2 X 15.1 cm      280 pp.      2,000 copies  
Estimated price: 110 won

This book deals with the state authorized standard and technical conditions of various ferrous-metals of the Soviet Union, such as cast iron, iron alloy and steels, covering all the newly invented steels.

The handbook consists of two volumes. The Vol. 1 deals with steel.

No. 9      1958 (6)      Copies wanted . . . . .

**INTENSIFIED REPAIR OF METALLURGICAL EQUIP-  
MENTS**

18.7 X 12.7 cm. 150 pp. 2,000 copies  
Estimated price: 60 won

This book deals with introduction of the intensified re-  
pair method to the metallurgical equipments, and with  
the experiences of big-, medium- and small-scale repair  
for aggregates.

Enumerating numerous examples for intensified re-  
pair work, it also relates to the rational organization of  
repair work and its effects upon the efficiency of machine.

No. 9 1958 (7) ~ Copies wanted . . . . .

**CARBONIC STEEL PRODUCTION**

22.2 X 15.1 cm. 240 pp. 1,000 copies  
Estimated price: 95 won

This book clearly describes the technical production  
process and cutting course of the carbonic steel.

This book is of good value for the skilled workers in  
this line.

No. 9 1958 (8) Copies wanted . . . . .

**FORGING SHOP**

Translated by Kim Eung Mo  
18.7 X 12.7 cm. 234 pp. 1,000 copies  
Estimated price: 64 won

This book illustrates how the workers in the Soviet  
Union organize and rationalize the work of forging shop  
to raise production efficiency and cites many instances of  
advanced working methods.

No. 9 1958 (9) Copies wanted . . . . .

**EXPERIENCES OF THE ADVANCED COPPER  
SMELTERS**

Translated by Ryu Koon Soo  
18.7 X 12.7 cm. 234 pp. 1,000 copies  
Estimated price: 64 won

This book deals with the good results scored by the  
copper smelters in the Ural of the Soviet Union, their

advanced working methods and the socialist emulation  
for increased production.

No. 9 1958 (10) Copies wanted . . . . .

**NEW TECHNICAL LIBRARY OF RENOVATORS (in  
the metallurgical field) Nos. 1-10**

18.7 X 12.7 cm. 66 pp. 3,000 copies  
Estimated price: 20 won

This booklet deals with the new technical questions,  
that is, the continuous casting and the introduction of  
oxygen into metal cutting.

No. 9 1958 (11) Copies wanted . . . . .

**TECHNICAL INFORMATION OF THE METALLURGY  
Nos. 1-6**

18.7 X 12.7 cm. 96 pp. 2,000 copies  
Estimated price: 40 won

This book describes the latest technical achievements  
which were reported in the foreign publications, includ-  
ing Soviet magazines, "Steel", "Current Metallurgical  
Problems," "Non-Ferrous Metals" and "Metal Work-  
ers," etc.

It also refers to the technical questions which our coun-  
try must introduce.

No. 9 1958 (12) Copies wanted . . . . .

**INNER-FRICTIONAL MATERIALS AND METALS**

Translated by Lee Jin Ki  
22.2 X 15.1 cm. 360 pp. 2,000 copies  
Estimated price: 142 won

This book makes clear the characteristics of the inner-  
frictional alloy and its accessory parts manufacturing.  
It also deals with the questions on the utilization of the  
substitute for alloy and the technical process for the pro-  
duction of the inner-frictional accessory parts.

No. 9 1958 (13) Copies wanted . . . . .

### **LATHE**

By Kim Byung Soo and Ho Ki Joong  
22.2 X 15.1 cm. 300 pp. 5,000 copies  
Estimated price: 120 won

These authors, basing on the long years of their experiences for lathe works, explain in detail for the structure of various lathes used widely in our country, along with their operational characteristics. They also dwell on the equipments for its rational utilization.

This book holds weighty significance for turners in our country.

No. 9 1958 (14) Copies wanted . . . . .

### **HANDBOOK OF TURNERS**

Translated by Li Myung Hi  
22.2 X 15.1 cm. 440 pp. 3,000 copies  
Estimated price: 175 won

Being published in 1955 by State Publishing House of the D.P.R.K., this book enjoyed wide popularity with the readers and met with their sincere desire for its enlarged edition. In conformity with this, it will be reedited with a few revision in connection with its creative application to the actual situation of our country. Mistranslations are corrected.

It is hoped to be a valuable guide for turners and specialists engaging in metal-cutting industry.

No. 9 1958 (15) Copies wanted . . . . .

### **HANDBOOK OF WELDING**

Translated by Cho Sang Moon  
22.2 X 15.1 cm. 360 pp. 2,000 copies  
Estimated price: 142 won

This translation is made to provide the welding workers with various welding methods and necessary materials.

No. 9 1958 (16) Copies wanted . . . . .

#### **CONCISE HANDBOOK OF GILT**

Translated by Kwon O Ryul  
22.2 X 15.1 cm. 200 pp. 1,000 copies  
Estimated price: 80 won

This book is devoted to the preventive work of the rust of metals and gives us elementary knowledge of the electric and electro-chemical engineering.

It also gives general conception as to the consumption norms of the wire covering materials and of the covering work along with its inspection method.

No. 9 1958 (17) Copies wanted . . . . .

#### **HIGH-SPEED MOULD BUILDING**

Translated by Yang Chang Duk  
18.7 X 12.7 cm. 166 pp. 2,000 copies  
Estimated price: 50 won

It deals with the technical process and features of the High-Speed Building of Mould, which will show valuable materials for workers engaging in casting shop.

No. 9 1958 (18) Copies wanted . . . . .

#### **NEW TECHNICAL LIBRARY OF RENOVATORS OF THE MACHINE-BUILDING INDUSTRY**

Nos. 1-11

18.7 X 12.7 cm. 66 pp. 3,000 copies  
Estimated price: 20 won

This library deals with new technical problems and advanced working methods for skilled workers, technicians and engineers engaging in the machine building industry.

No. 9 1958 (19) Copies wanted . . . . .

#### **REGENERATION OF TOOLS**

Translated by Kim Ik Joo  
22.2 X 15.1 cm. 360 pp. 3,000 copies  
Estimated price: 98 won

Basing on the long standing experiences of the Soviet machine-building plants, this translation introduces the

regeneration process of various tools according to their technical properties.

No. 9 1958 (20) Copies wanted . . . . .

**DESIGN OF TECHNICAL PROCESSES FOR THE STAMPING AND COLD STAMPING**

18.7 X 12.7 cm. 200 pp. 1,500 copies  
Estimated price: 62 won

A guide to technical processes of metal stamping and cold metal stamping, this book is worth reading for specialists in this line.

No. 9 1958 (21) Copies wanted . . . . .

**INTENSIFIED METAL CUTTING**

Translated by Lee Dong Ho  
22.2 X 15.1 cm. 260 pp. 2,000 copies  
Estimated price: 70 won

Written for specialists and scientific research workers and students majoring in this line, it deals with the process of high-speed metal cutting, formation of the flow of steel-dust, and the wears and endurance of the bite along with its proper shape.

It also touches upon the accurate cutting speed and various factors affecting it.

No. 9 1958 (22) Copies wanted . . . . .

**ELECTRO-METAL CUTTING**

By Bak Jung Kyu  
22.2 X 15.1 cm., pp. 300, 2,000 copies  
Estimated price: 80 won

It deals with one of the most advanced metal cutting method—the electro-metal cutting. Being first of this kinds in our country, it introduces basic principles of the electro-metal cutting and diverse needed equipment.

It also refers to the current technical situation of our country as well as its future prospects.

No. 9 1958 (23) Copies wanted . . . . .

**PRACTICAL POCKET-BOOK FOR MACHINE-BUILDING WORKERS**

Translated by Kim Jal Hak  
22.2 X 15.1 cm. 400 pp. 5,000 copies  
Estimated price: 60 won

It contains numerous figures and formulas which are necessary in drawing up plans for the construction of machines and other various materials needed in cutting accessories.

Being a small-sized book, it can be kept in pocket for daily use by the specialists and workers engaged in machine-building work.

No. 9 1958 (24) Copies wanted . . . . .

**ELIMINATION OF CASTING REJECTS**

Translated by Chai Myung Hi  
18.7 X 12.7 cm. 200 pp. 2,000 copies  
Estimated price: 62 won

It explains the main cause of the rejects of casting iron, steel and other non-ferrous casting goods, and further dwells on the effective means to eliminate it.

It is a good reference book for technicians, engineers and skilled workers engaging in the casting shop.

No. 9 1958 (25) Copies wanted . . . . .

**A SUBSTITUTE FOR NON-FERROUS METALS**

Translated by Kim Ri Taik  
22.2 X 15.1 cm. 370 pp. 3,000 copies  
Estimated price: 210 won

This is a collection of treatises written by the workers of the machine-building industry and of the scientific institutes of the Soviet Union of the questions of substitute for and the economization of the non-ferrous metals.

No. 9 1958 (26) Copies wanted . . . . .

**TECHNICAL INFORMATION OF MACHINES**  
Nos. 1-6

18.7 X 12.7 cm. 96 pp. 2,000 copies  
Estimated price: 40 won

It introduces new technical results reported in the Soviet magazines, such as "Information of the Machine-Building," "Machine-Construction", "Machine-tools", "Welding", "Casting", "Tool making", etc. and in the other countries' publications.

It also carries other necessary treatises which our country must immediately introduce.

No. 9            1958 (27)            Copies wanted . . . . .

**HANDBOOK OF THE MINING INDUSTRY. Vol. 1**

Translated by Li Moon Sik and Two others.  
22.2 X 15.1 cm.            400 pp.            2,000 copies  
Estimated price: 160 won

Translation of chapters, 1, 2, 3, 4, 5 of the "Handbook of the Mining Industry, Vol. 1" which was published in 1952 by the Soviet Metallurgical Publishing House, it gives fundamental collierial knowledge on the work of coal-mine, pit-prop setting and tunneling, and so forth.

No. 9            1958 (28)            Copies wanted . . . . .

**HANDBOOK OF THE MINING INDUSTRY Vol. III**

Translated by Lee Moon Sik and two others.  
22.2 X 15.1 cm.            400 pp.            2,000 copies  
Estimated price: 160 won

Translation of chapters—10, 11, 12, 13 from the "Handbook of the Mining Industry, Vol. 1", this book deals in the main with the conveyance system from the hewing face, ore transfer, blasting; inner pit-drilling and so-forth.

No. 9            1958 (29)            Copies wanted . . . . .

**MANUAL BOOK OF MINING INSTRUCTORS**

By Hu Sung Jai  
22.2 X 15.1 cm.            600 pp.            2,000 copies  
Estimated price: 140 won

This booklet is published to provide mine instructors with fundamental, all-round knowledge including the basic mining theory, mining geology, labour organization, labour protection and so forth. It will be great help to

mining instructors in their work as well as workers and technicians engaging in coal-mining.

It also shows with illustrations the advanced working methods of the Korean and the Soviet coal miners.

No. 9            1958 (30)            Copies wanted . . . . .

#### **HIGH-SPEED DRILLING**

22.2 X 15.1 cm.            240 pp.            2,000 copies  
Estimated price: 95 won

It sums up and systematizes the advanced experiences of the Soviet coal-miners acquired in the high-speed drilling which reached at 1,300 metres per month and that of the Czechoslovak coal-miners reached at 1,021.8 metres in the cross-cut drilling, as well as Korean miners' brilliant results in this line.

It also dwells on the concrete measures to be taken for further technical improvement of the pit-drilling in our country.

No. 9            1958 (31)            Copies wanted . . . . .

#### **ASSAYING OF MINERALS**

22.2 X 15.1 cm.            240 pp.            2,000 copies  
Estimated price: 98 won

This translation deals with chemical assaying of twenty kinds of minerals which formulated by the State Standardization Commission of the Soviet Union, containing those of iron ores, ore agglomeration, fluor-spar, black-lead, apatite, asbestos, mica and porcelain clay, etc.

It will be of great help for the analysis of our country, because it includes such assaying of minerals as waiting standardization in our country.

No. 9            1958 (32)            Copies wanted . . . . .

#### **NEW TECHNICAL LIBRARIES OF RENOVATORS (of the Coal-Mining Industry). Nos. 1-6**

18.7 X 12.7 cm.            66 pp.            2,000 copies  
Estimated price: 20 won

Designed for the skilled workers engaging in the coal-

mining industry and ore-dressing centres, it deals with basic technical knowledge of mining and advanced working methods to promote their technical levels.

The libraries (No. 1-No. 5) will be published within this year, and the No. 1 will be supplemented by "Concise Mining Reader" to expound the elementary mining theory.

No. 9            1958 (33)            Copies wanted . . . . .

**TECHNICAL INFORMATION OF MINING**  
**Nos. 1-6**

18.7 X 12.7 cm.            96 pp.            3,000 copies  
Estimated price: 40 won

This book is aimed at mutual exchange of the superior experiences gained by the workers in the fields of coal-mines, ore dressing shops, geological survey and chemical assaying, etc., to introduce advanced working methods and inventions and innovations.

It also introduces new technical results attained by the advanced countries.

No. 9            1958 (34)            Copies wanted . . . . .

**HANDBOOK OF ELECTRIC ISOLATORS. Part 1**

22.2 X 15.1 cm.            400 pp.            2,500 copies  
Estimated price: 160 won

A translation, this book enters into detail of the electric isolators which command an overwhelming majority in the field of various materials for electric use.

No. 9            1958 (35)            Copies wanted . . . . .

**HANDBOOK OF ELECTRIC GEAR**

Translated by Chang Kwang Sun  
22.2 X 15.1 cm.            300 pp.            2,000 copies  
Estimated price: 81 won

Designed for the skilled workers of electric machine shops and repair shops, this book explains how to check the electrical machineries according to the general standard value and electric outfits set in the laboratory.

It also describes matters that demand attention in adjusting the electrical gears.

No. 9 1958 (36) Copies wanted . . . . .

#### **NUCLEAR-POWER ENGINEERING**

Translated by Moon Kyong Ok  
18.7 X 12.7 cm. 156 pp. 1,000 copies  
Estimated price: 30 won

This book introduces the main structure of nuclear radiator which produces industrial energy and gives clear-cut explanation of the characteristics of the nuclear-power apparatus in operation.

It also illustrates the projection of the atomic power plant run by the Academy of Sciences, U.S.S.R. and those of the other countries' according to their publications.

Careful attention are paid to the special equipment and materials used for the nuclear radiators.

No. 9 1958 (37) Copies wanted . . . . .

#### **INSTRUCTION ON THE USE OF THE TUBE-CLEANING AGENT**

Translated, summarized and adapted by the State Technical Commission  
18.7 X 12.7 cm. 166 pp. 2,000 copies  
Estimated price: 30 won

It deals with the methods of chloridation of the boiler-water and elimination of the deposit and cleaning of the fur which stuck to the inner side of the tube through application of the tube-cleaning agent.

The final purpose of this book lies in the economization of fuel by longer preservation of the water temperature.

No. 9 1958 (38) Copies wanted . . . . .

#### **PRODUCTION OF ELECTRIC GAUGE**

Translated by Yoon Huun Mo  
22.2 X 15.1 cm. 380 pp. 1,500 copies  
Estimated price: 150 won

This pamphlet describes in detail the production processes of various electric gauges.

It will be of great help for the workers engaging in the power plants and transformer substations as well as students concerned.

No. 9            1958 (39)            Copies wanted . . . . .

#### **PRODUCTION OF ELECTRIC OUTFIT**

Translated by Jung Hi Moon  
18.7 X 12.7 cm.            166 pp.            1,500 copies  
Estimated price: 135 won

Designed for engineers and technicians of the electric machine shops and the electric repair workers, it plainly describes the production processes of various electric outfits.

No. 9            1958 (40)            Copies wanted . . . . .

#### **INTRODUCTION OF THE ALTERNATIVE OPERATING ELECTRIC CURRENT TO THE ELECTRIC SYSTEM**

Translated by Han Yung Sep  
13.7 X 12.7 cm.            150 pp.            2,000 copies  
Estimated price: 52 won

For the protection of relays, it deals with various methods to introduce the alternative operating current into the electric system instead of D.C.

Especially, a number of A. C. circuit are showed according to various kinds of relays.

No. 9            1958 (41)            Copies wanted . . . . .

#### **UTILIZATION OF THE SUB-HEAT**

22.2 X 15.1 cm.            280 pp.            1,000 copies  
Estimated price: 160 won

This book devoted to the rational utilization of the sub-heat produced in large amount in the industrial factories, especially, in the heavy industrial enterprises.

Deep attention, in particular, has been directed to various refuse gas which transpires from industrial

furnaces, with a view to transferring it into a motive power.

No. 9            1958 (42)            Copies wanted . . . . .

#### **HANDBOOK OF THE WIRELESS ENGINEERING**

Translated, summarized and adopted.  
18.7 X 12.7 cm.            300 pp.            1,500 copies  
Estimated price: 186 won

Designed for the radiotelegraphists, this booklet deals in detail with various technical questions on the wireless apparatus and accessory parts.

No. 9            1958 (43)            Copies wanted . . . . .

#### **NEW TECHNICAL LIBRARY OF RENOVATORS (of the Electricity) Nos. 1-3**

18.7 X 12.7 cm.            66 pp.            3,000 copies  
Estimated price: 20 won

New technical questions and advanced working methods are dealt with to introduce them to the popular masses.

It will help workers, office employees and students in their elementary technical study and will be a good companion in solving technical questions arising in their work.

No. 9            1958 (44)            Copies wanted . . . . .

#### **TECHNICAL INFORMATION ON ELECTRICITY Nos. 1-6**

18.7 X 12.7 cm.            96 pp.            3,000 copies  
Estimated price: 40 won

These books (No. 1-No. 6) will be translated and published within this year. New technical results and machine-equipment used in the advanced foreign countries will be introduced along with the advanced working methods attained in the field of electro-communication.

No. 9            1958 (45)            Copies wanted . . . . .

**HANDBOOK ON TELEPHONE**

Translated, summarized and adapted by Bak In Kwon  
22.2 X 15.1 cm. 300 pp. 1,200 copies  
Estimated price: 120 won

Various kinds of telephone-sets and the communication means are introduced to help the experts in practical work.

No. 9 1958 (46)- Copies wanted . . . . .

**NEW TECHNICAL LIBRARY OF RENOVATORS**  
(of the Communication field) Nos. 1-2

18.7 X 12.7 cm. 66 pp. 3,000 copies  
Estimated price: 20 won

In this book, new technical questions, advanced working methods and valuable experiences gained in the communication field are introduced to popularize them to the popular masses of our country.

No. 9 1958 (47) Copies wanted . . . . .

**TECHNICAL INFORMATION ON TRAFIC AND TRANSPORT** Nos. 1-6

18.7 X 12.7 cm. 96 pp. 2,000 copies  
Estimated price: 40 won

This series of information books which introduces new technical and scientific results in the traffic and transport fields are translated from foreign magazines such as "Railway Construction," "Railway Transport," "Railway Technique" of the Soviet Union.

It further dwells on such technical problems to be creatively introduced into our country.

No. 9 1958 (48) Copies wanted . . . . .

**TECHNICAL PROBLEMS OF CLOTHES MAKING**  
**BOOK. 2**

(Sewing and Iron Smoothing)

22.2 X 15.1 cm. 280 pp. 2,000 copies  
Estimated price: 110 won

Whereas the book No. 1, which had already been published, had described for cutting and tailoring, this book, as the sequel to the previous one, deals with sewing requisites and needle work.

It clearly shows how to make the different kinds of coats, one-piece dresses, underwears and overcoats, etc.

No. 9            1958 (49)            Copies wanted . . . . .

#### **STAPLE FIBRE**

By Kim Kwan Soo and two others  
22.2 X 15.1 cm.            240 pp.            1,000 copies  
Estimated price: 95 won

This book sums up and systematizes the results gained in the production of staple fibre in our country as well as in foreign countries.

Describing the production process of staple fibre, it gives concrete accounts of the physical and mechanical characteristics of various staple fibre, its weaving and dyeing courses.

It also carries experiences acquired in the creative application of artificial silk-yarn and fibre, produced in Chungjin Spinning Mill and processed in the Pyongyang Textile Mill.

Besides, it dwells on the measures taken by the workers to solve the present technical questions.

No. 9            1958 (50)            Copies wanted . . . . .

#### **LEATHER MANUFACTURING. BOOK 2**

Translated by Kim Chil Shung and other  
18.7 X 12.7 cm.            250 pp.            1,000 copies  
Estimated price: 80 won

As the sequel to the previous book No. 1, this book introduces the drying method of leather and the finishing process of leather production along with its evaluation method.

It also deals with various kinds of needed equipment and subsidiary products.

No. 9            1958 (51)            Copies wanted . . . . .

#### **SALT-MANUFACTURE**

By Kim Kyung Jun

22.2 X 15.1 cm. 240 pp. 2,000 copies  
Estimated price: 62 won

On the basis of scientific researches, it sums up the results gained in the salt manufacture and introduces reasonable measures for further increased production.

No. 9 1958 (52) Copies wanted . . . . .

#### **PRODUCTION OF THE SULPHUREOUS ACID PULP**

Translated by Kim Ik Ryong  
22.2 X 15.1 cm. 280 pp. 1,000 copies  
Estimated price: 110 won

Advanced working methods in the sulphureous acid pulp production in the Soviet Union are introduced.

It enumerates the whole processes from pulp manufacturing to paper making; refinement and classification of the pulp, dehydration and desiccation on paper making and so-forth.

No. 9 1958 (53) Copies wanted . . . . .

#### **TECHNOLOGY OF REFRIGERATION FOR FOOD-STUFF Vol. 1**

Translated by Kim Un Ha  
22.2 X 15.1 cm. 240 pp. 2,000 copies  
Estimated price: 135 won

Written by outstanding Russian scholars, this book represents the latest technology of refrigeration.

It provides with rich data of various new technology of the food-stuff refrigeration which could be applied both in enterprises and at home.

As a text-book of the technical institute of the Soviet Union, it will also help the Korean workers in this line.

No. 9 1958 (54) Copies wanted . . . . .

#### **VEGETABLES AND FRUITS PROCESSING**

Translated, summarized and adapted by Kim Ik  
18.7 X 12.7 cm. 234 pp. 2,000 copies  
Estimated price: 40 won

It shows how to pack vegetables and fruits grown in

our country in cans or bottles for the purpose of export. It also refers to the local produce to be processed in a suitable way.

It is helpful for the agricultural and handicraftsmen's co-operatives in manufacturing goods to export.

No. 9            1958 (55)            Copies wanted . . . . .

#### **POTATOES AND VEGETABLES DRYING**

Translated by O Soon Yup  
18.7 X 12.7 cm.            234 pp.            2,000 copies  
Estimated price: 40 won

This book is aimed at the popularization of the drying method of potatoes, vegetables and fruits, which is applicable not only to the big-scale industrial enterprises but also to the small-scale agricultural co-operatives.

No. 9            1958 (56)            Copies wanted . . . . .

#### **MAIZE PROCESSING**

By O Hi Keun  
18.7 X 12.7 cm.            200 pp.            2,000 copies  
Estimated price: 35 won

It introduces good results of maize processing gained by our country, the Soviet Union and the other fraternal countries, and some capitalist countries.

The processing of the maize into vermicelli, confactionary and bread, etc., is mentioned in two ways; one for the industrial enterprises and the other for home made.

No. 9            1958 (57)            Copies wanted . . . . .

#### **SUBSTITUTE FOR LEATHER AND THE TECHNOLOGY ON THE TEXTILE FABRICS FOR INDUSTRIAL USE Vol. 1**

Translated by Jun Byung Kun  
22.2 X 15.1 cm.            300 pp.            1,000 copies  
Estimated price: 120 won

Being written on the basis of the results gained by the Soviet Union and by some of the capitalist countries, this book constitutes an authoritative book on industrial production of the artificial, substitutional leather and textile fabrics which used for the industrial purpose.

Whereas Vol. 1 outlines the leather and textile industry with concise explanation of the necessary devices, Vol. 2, which will be published in 1959, illustrates for its production process.

No. 9            1958 (58)            Copies wanted . . . . .

**NEW TECHNICAL LIBRARY OF RENOVATORS (of the Light Industry) Nos 1-3**

18.7 X 12.7 cm.            66 pp.            3,000 copies  
Estimated price: 20 won

This book is published for the ordinary people who are not versed in the technique providing them with new technical questions, advanced working methods and experiences attained in the light industry.

No. 9            1958 (59)            Copies wanted . . . . .

**TECHNICAL INFORMATION ON THE LIGHT INDUSTRY Nos. 1-6**

18.7 X 12.7 cm.            96 pp.            2,000 copies  
Estimated price: 40 won

These treatises, which are indispensable for the development of the light industry of our country are taken from the Soviet technical magazines in relation with the spinning, dyeing, paper manufacturing and the production of staple fibre, rubber, ceramic ware, glasses, leather, food-stuff and daily necessities, and so-forth.

No. 9            1958 (60)            Copies wanted . . . . .

**LORDING OF TIMBER**

18.7 X 12.7 cm.            190 pp.            1,500 copies  
Estimated price: 60 won

Introducing creative working method of the Soviet lumber-men, it shows the convenient and reasonable labour organization in timber work; lording and unlording and the way for the mechanization of the work.

No. 9            1958 (61)            Copies wanted . . . . .

**veneer PRODUCTION Vol. 2**

Translated by Hong Jin Suk  
22.2 X 15.1 cm. 360 pp. 1,000 copies  
Estimated price: 145 won

Whereas the preceding Vol. 1 deals the veneer with its variety, production history, structural characteristics, raw materials and its storage conditions in the factories, this book tells how to produce, dry, classify and process the veneer and gives detailed accounts of the necessary instruments along with directions for use.

No. 9 1958 (62) Copies wanted . . . . .

**NEW TECHNICAL LIBRARY OF RENOVATORS (of the Forestry) Nos. 1-4**

18.7 X 12.7 cm. 134 pp. 2,000 copies  
Estimated price: 23 won

This book is published for the ordinary people providing them with new technical questions, advanced working methods and experiences in the field of forestry.

No. 9 1958 (63) Copies wanted . . . . .

**MANAGEMENT OF THE CEMENT PRODUCTION Vol. 2**

Translated by Won Jong Kwan  
22.2 X 15.1 cm. 300 pp. 1,000 copies  
Estimated price: 120 won

To increase the output of the cement and enhance the quality, the advanced management for the cement factory is illustrated.

No. 9 1958 (64) Copies wanted . . . . .

**CORROSIVE ACTION OF CHEMICAL DEVICES AND ANTI-CORROSIVE AGENT**

Translated by Lee Hong Koo  
22.2 X 15.1 cm. 300 pp. 1,500 copies  
Estimated price: 180 won

This book deals with anti-corrosion of the various devices which are utilized in large quantities in the in-

dustrial enterprises. The main cause of corrosion is scientifically analysed and measures are shown to prevent it. It also introduces anti-corrosive materials.

No. 9      1958 (65)      Copies wanted . . . . .

#### **NITROGEN HANDBOOK**

Translated by Kim Chang Kyo  
18.7 X 12.7 cm.      234 pp.      1,500 copies  
Estimated price: 73 won

This book illustrates with diagrams the nitrogen and various parametres of its diverse derivatives—NH<sub>3</sub>, sulphuric ammonium, nitrogenous fertilizer, nitro-lime and etc.

This book is made so as to be carried in pocket.

No. 9      1958 (66)      Copies wanted . . . . .

#### **SYNTHETIC HYDRO-GEOLOGIC ENGINEERING**

22.2 X 15.1 cm.      300 pp.      1,000 copies  
Estimated price: 170 won

This book deals with the variety of the plastic materials, their manufacturing method and raw materials.

In particular, the future prospects of the vinyl chloride which is drawing attention of the world are depicted in concrete way.

No. 9      1958 (67)      Copies wanted . . . . .

#### **NEW TECHNICAL LIBRARY OF RENOVATORS. (of the Chemical Industry) Nos. 1-5**

18.7 X 12.7 cm.      134 pp.      3,000 copies  
Estimated price: 23 won

Designed for the ordinary people, it introduces new technical questions, advanced working methods and experiences gained in the chemical industry.

No. 9      1958 (68)      Copies wanted . . . . .

#### **TECHNICAL INFORMATION OF THE CHEMISTRY Nos 1-6**

18.7 X 12.7 cm.      96 pp.      3,000 copies

**Estimated price: 40 won**

Necessary treatises for the development of our chemical industry are translated and collected in this book, which are taken from foreign technical magazines, such as the "Chemical Industry" of the Soviet Union in the main.

It deals with fertilizer, pharmacy and other problems related to the chemical industry.

No. 9            1958 (69)            Copies wanted . . . . .

**MAINTENANCE AND REPAIR INDICES IN CITY PLANNING**

By Ministry of Local Economy  
22.2 X 15.1 cm. pp. 216 2,000 copies  
To be published in June 1958  
Estimated price: 65 won

A systematized list of indices for various maintenance and repair projects in the field of city management. It contains indices and technical norms for over 850 kinds of large and small maintenance and repair projects for buildings, bridges, gardens, green belts, etc. It will help the workers in this field in fulfilling the tasks set by the state for the economization of material and labour, the ensuring of high quality of construction and the systematic reduction of construction cost.

No. 11 1958 (1) Copies wanted . . . . .

**UNIFORM LABOUR NORMS IN CONSTRUCTION**

By State Construction Commission  
18.7 X 12.7 cm. pp. 900 3,000 copies  
To be published in December 1958  
Estimated price: 270 won

A revised, enlarged edition of the "Uniform Labour Norms in Construction" adopted by the 22nd committee meeting of the Commission held September 26, 1955.

It covers the fields of (1) transport, (2) earth work, (3) reinforced concrete, (4) steel frame, (5) brick, (6) wooden structure, (7) roof and floor, (8) building material and lumbering and (9) plastering.

No 11 1958 (2) Copies wanted . . . . .

**TECHNICAL CONDITIONS ON BUILDING AND ASSEMBLING PROJECTS**

By State Construction Commission  
22.2 X 15.1 cm. pp. 124 3,000 copies  
To be published in December 1958  
Estimated price: 36 won

A detailed description of technical conditions related to the "Rules on Construction Projects and Inspection of Them" — Part II of the "Norms and Rules on Construction" adopted by the 24th committee meeting of the State Construction Commission held on October 31, 1956.

The present volume contains technical conditions on construction and inspection of stone work and stove building and of finishing work.

No. 11 1958 (3) Copies wanted . . . . .

**NORMS AND RULES ON SUPPORTING STRUCTURE DESIGNING**

By State Construction Commission  
22.2 X 15.1 cm. pp. 140 3,000 copies  
To be published in May 1958  
Estimated price: 40 won

These new norms adopted by the State Construction Commission envisage the transition from the calculation of structure through admitted stress to calculation through limiting condition, which will make it possible to utilize structure section to the maximum and economize large quantities of lumber, structural iron and cement.

No. 11 1958 (4) Copies wanted . . . . .

**NORMS AND TECHNICAL RULES ON STONE STRUCTURE DESIGNING**

By State Construction Commission  
22.2 X 15.1 cm. pp. 158 3,000 copies  
To be published in November 1958  
Estimated price: 45 won

This book will play the role of detailed regulations for the application of the norms and technical rules on stone structure designing included in the Rules on Supporting Structure Designing adopted by the State Construction Commission.

It plainly describes technical conditions for going over to the calculation of structure through limiting condition from the calculation through breaking stress and contains numbers of calculation formula making it possible to utilize structure section effectively and economize structural stone.

No. 11            1958 (5)            Copies wanted . . . . .

**NORMS AND TECHNICAL RULES ON STEEL FRAME DESIGNING**

By State Construction Commission  
22.2 X 15.1 cm.            pp. 74            3,000 copies  
To be published in October 1958  
Estimated price: 20 won

Detailed regulations for the application of the norms on steel structure designing included in the Norms and Rules on Supporting Structure Designing adopted by the State Construction Commission.

It also contains technical conditions on welded steel structure, which were not included in the old rules.

No. 11            1958 (6)            Copies wanted . . . . .

**NORMS AND TECHNICAL RULES ON CONCRETE AND REINFORCED CONCRETE STRUCTURE DESIGNING**

By State Construction Commission  
22.2 X 15.1 cm.            pp. 112            3,000 copies  
To be published in November  
Estimated price: 30 won

It describes in detail technical conditions for going over to the calculation through limiting condition. It shows wherein lies possibilities of economizing steel and cement.

No. 11            1958 (7)            Copies wanted . . . . .

**CONSTRUCTION NORMS AND RULES**

**Vol. III, Part 2**

By State Construction Commission  
25.4 X 18.7 cm.            pp. 212            3,000 copies  
To be published in June  
Price: 60 won

This volume, which deals with norms and rules on construction budget, was adopted by the 8th committee meeting of the Commission.

It contains six chapters related to special construction projects as well as rules on computing cost of operation of construction machines and various indices.  
No. 11 1958 (8) Copies wanted . . . . .

**UNIFORM PRICE TABLE FOR CONSTRUCTION BUDGET**

By State Technical Commission  
22.2 X 15.1 cm. pp.131 3,000 copies  
To be published in September  
Price: 300 won

This book is written on the basis of Volume III of the "Construction Norms and Rules" — norms and rules on construction budgets.

It will be of great help in reducing construction costs and firmly establishing order and system in the supply of funds to construction projects.

No. 11 1958 (9) Copies wanted . . . . .

**INSTRUCTIONS ON METHODS OF RURAL VILLAGE PLANNING**

By State Construction Commission  
22.2 X 15.1 cm. pp. 216 20,000 copies  
Price: 60 won

General conception of rural village planning, conditions of the village under plan, technical and economic calculations, planning and distribution of villages, etc.

No. 11 1958 (10) Copies wanted . . . . .

**INSTRUCTIONS ON EXPLORATION AND UTILIZATION OF LOCAL MATERIAL**

By State Construction Commission  
22.2 X 15.1 cm. pp.216 20,000 copies  
Price: 60 won

Geographical distribution of construction material, estimation and analysis of local material, methods of building material production, scope of their application, measures for preserving building material, etc.

No. 11 1958 (11) Copies wanted . . . . .

**INSTRUCTIONS ON DRAWING UP COUNTY CONSTRUCTION PLAN**

By State Construction Commission  
22.2 X 15.1 cm. pp.350 20,000 copies  
Price: 70 won

It describes technical questions related to the planning of the construction of county seats and workers' district. It cites numbers of examples based on technical and economic calculations. It also contains regulations on control and inspection of the course of construction.

No. 11 1958 (12) Copies wanted . . . . .

**STANDARD BLUEPRINTS OF RURAL VILLAGE HOUSES**

By State Construction Commission  
50.8 X 37.4 cm. pp.43 2,000 copies  
To be published in August  
Estimated price: 15 won

Blueprints of standard dwelling houses for different localities of our country.

The book also contains descriptions of construction processes and tables of construction budgets.

No. 11 1958 (13) Copies wanted . . . . .

**CONSTRUCTION NORMS AND RULES (A reference books)**

By the State Construction Commission of the U.S.S.R.  
Council of Ministers

Translated by the State Construction Commission of the D.P.R.K.

22.2 X 15.1 cm. pp. 120 3,000 copies  
Price: 35 won

This translation is published for further developing our construction technique and helping in drawing up new technical norms.

It covers designing norms on river and hydro-power structure, gas supplying, heating and air conditioning devices, water supplying installations, bridges, etc.

No. 11 1958 (14) Copies wanted . . . . .

**TABLES OF TRANSPORT FEES AND COST MATERIAL IN DIFFERENT LOCALITIES (For Construction Budget)**

By State Construction Commission  
25.4 X 18.7 cm. pp.130 3,000 copies

To be published in August

Estimated Price: 35 won

It contains tables fees of transport of various material by different transport media — railways, lorries, ships

and animal drawn carts — and lists of price of building material for various construction objects.

No. 11      1958 (15)      Copies wanted . . . . .

**A COLLECTION OF REGULATIONS AND INSTRUCTIONS ON CONSTRUCTION**

Ratified by the Cabinet and the State Construction Commission of the D.P.R.K.

22.2 X 15.1 cm.      pp. 320      3,000 copies

To be published in June

Estimated price: 80 won

It contains the revised regulations on blueprinting and compiling budgets for the construction of industrial and public buildings, ratified by the Cabinet of the D.P.R.K., as well as regulations adopted by the State Construction Commission on drawing up standard designs and on applying them to construction, blueprinting workers' quotas, regulations and instructions on the industrial, housing and public building construction, technical rules on the production of pre-fabricated reinforced concrete parts, etc.

No 11      1958 (16)      Copies wanted . . . . .

**TEMPORARY RULES ON ASSEMBLING PRE-FABRICATED CONSTRUCTION PARTS**

By State Construction Commission

22.2 X 15.1 cm.      pp.86      1,000 copies

To be published in November

Price: 25 won

These rules are aimed at ensuring the most reasonable application of mechanization, labour organization and assembling process to the pre-fabricated construction which is now being put in effect in Korea on a wide scale.

No. 11      1958 (17)      Copies wanted . . . . .

**CONSTRUCTION NORMS AND RULES**

**Part 1: Norms and Rules on Designing**

By State Construction Commission

18.7 X 12.7 cm.      pp. 378      3,000 copies

Price: 200 won

It contains four kinds of basic rules on capital construction designing and five kinds of technical rules on designing specific objects including industrial and public buildings and dwelling houses.

No. 11      1958 (18)      Copies wanted . . . . .

### **CONSTRUCTION NORMS AND RULES**

#### **Part 3: Norms and Rules on Construction Budget (Book 1)**

By State Construction Commission :

18.7 X 12.7 cm. pp. 625 3,000 copies  
Price: 200 won

It contains basic rules applicable to budgets for capital construction designing, about 5,500 consumption norms applicable to construction projects and rules on calculation of work in various processes.

These norms and rules constitute the foundation for cost accounting system, which helps firmly establish order in the field of construction, lower costs and enhance labour productivity.

No. 11 1958 (19) Copies wanted . . . . .

#### **INSTRUCTION ON CALCULATION OF SECTION OF REINFORCED CONCRETE ELEMENTS**

By the U.S.S.R. Ministry of Metal and Chemical Enterprises Construction

Translated by Chung Bong Wha  
22.2 X 15.1 cm. pp.156 5,000 copies

To be published in October

Estimated price: 40 won

These concrete, detailed instructions on calculation of ferro-concrete elements will give great help to workers engaged in structure calculation in the field of construction.

No. 11 1958 (20) Copies wanted . . . . .

#### **TECHNICAL RULES ON CONCRETE WALL MEMBERS**

By Technical Department of U.S.S.R. Ministry of Construction

Translated by Song Jum Suk  
22.2 X 15.1 cm. pp.114 3,000 copies  
Price: 30 won

Compiled for Engineers, technicians, designing workers, research workers, technical inspectors and leading workers of construction trusts and production enterprises, this book deals with a number of technical questions related to the quality of raw material and products, consumption norms

of agglutination material and local technical rules, besides the processes of producing concrete wall blocks.

No. 11            1958 (21)            Copies wanted . . . . .

**REFERENCE MATERIAL FOR RURAL VILLAGE CONSTRUCTORS**

**—Designing—**

By Li Byung Ho  
22.2 X 15.1 cm.            pp. 83            10,000 copies  
To be published in June  
Price: 25 won

In view of the large scale rural village construction now under way in our country, the author tells the agricultural co-op work team members how to read blueprints of rural houses and public buildings and explains for them numbers of examples of rural village construction. He also provides them with data necessary in materializing the blueprints.

Even those who have no knowledge of designing will find this book quite easy to understand.

No. 11            1958 (22)            Copies wanted . . . . .

**RURAL VILLAGE PLANNING**

By Kim Byung Hyuk  
22.2 X 15.1 cm.            pp. 180            10,000 copies  
To be published in June  
Price: 50 won

It deals with methodological questions related to rural village construction — the selection of places for village construction, arrangement of rural residential quarters and parks, distribution of cultural and public health establishments, roads, squares, grounds, etc. It also tells how to arrange various production establishments of agricultural and stock breeding cooperatives and how to create green belts along streets and lawns in educational, public health and children's organs.

No. 11            1958 (23)            Copies wanted . . . . .

**DESIGNING AND CONSTRUCTION OF RURAL VILLAGE BUILDINGS**

By Cho Hak Chul  
22.2 X 15.1 cm.            pp. 258            10,000 copies  
To be published in August 1958  
Estimated price: 65 won

It contains data for designing and constructing sheep pens, cattle barns, stables and poultry houses as well as grain and seed storages, fodder storages, grain drying rooms and other buildings including black smith's shops and carpenter shops.

No. 11 1958 (24) Copies wanted . . . . .

#### **ARCHITECTURE AND CLIMATE OF KOREA**

By Choi Tai Hi  
22.2 X 15.1 cm. pp. 105 10,000 copies  
To be published in November  
Price: 30 won

It provides data necessary for designing buildings suitable for the climatic and living conditions of Korea.

Contents: Sunshine and buildings; temperature and buildings; volume of rainfall and buildings.

No. 11 1958 (25) Copies wanted . . . . .

#### **STANDARD DESIGNS FOR URBAN ONE-STORY HOUSES**

By State Construction Commission  
50.8 X 37.4 cm. pp. 60 1,500 copies  
Price: 15 won

These standard designs are divided into three groups, each consisting of designs for six types of houses. They are so designed that two or three rooms may be allotted to each household. As for material for walls, earthen brick, which can be easily made anywhere, are to be used. The span is standardized — 5.8 meters.

No. 11 1958 (26) Copies wanted . . . . .

#### **STANDARD DESIGNS FOR NURSERIES AND KINDERGARTENS**

By State Construction Commission  
50.8 X 37.4 cm. pp. 36 1,500 copies  
Price: 15 won

It contains a design of a nursery for 25 children and a kindergarten for 25 children, which are housed in a single building, as well as designs of separate nurseries and kindergartens. The former one has great advantages, for it makes it possible to economize material for auxiliary establishments to the maximum.

These designs can be extensively introduced in cities, county seats and workers' districts.

No. 11 1958 (27) Copies wanted . . . . .

**STANDARD DESIGNS FOR URBAN ONE- OR TWO-STORIED HOUSES (In three parts)**

By State Construction Commission

74.8 X 50.8 cm. pp. 220 1,500 copies

Price: 65 won for each part

Each part consists of three sections, each of which includes designs for 5-6 types of houses.

The designs envisage the application of pre-fabricated concrete or brick wall members. Huge blocks may be applied even to roofs of some of these houses. The span is standardized — 10.4 metres. All the parts are of state standard sizes.

No. 11 1958 (28) Copies wanted . . . . .

**STANDARD DESIGNS FOR RURAL VILLAGE CLUBS**

By State Construction Commission

50.8 X 37.4 cm. pp. 20 1,500 copies

Price: 10 won

Designs of agricultural cooperative clubs with exhibition galleries, recreation rooms and libraries as well as halls with the seating capacity of 200 or 300. The clubs will also have film projecting rooms.

They are so designed that local material may be utilized extensively.

No. 11 1958 (29) Copies wanted . . . . .

**STANDARD DESIGN OF RURAL VILLAGE CLINIC**

By State Construction Commission

50.8 X 37.4 cm. pp. 8 1,500 copies

Price: 10 won

A standard design for a rural village clinic with one doctor and two nurses. There are designs of dwelling houses of the staff members attached to the clinic as well as resting rooms for serious cases.

It envisages earthen brick for wall material.

No. 11 1958 (30) Copies wanted . . . . .

**STANDARD DESIGNS OF SCHOOLS FOR COMMON EDUCATION**

By State Construction Commission

50.8 X 37.4 cm. pp. 50 1,500 copies

Price: 15 won

Designs of 4-year schools with four classes, 7-year schools with ten classes. The number of classes may be

increased according to conditions of given localities.

These are for schools in rural village and small towns.  
The wall material is earthen brick.

No. 11 1958 (31) Copies wanted . . . . .

**STANDARD BLUEPRINTS OF WALL BLOCKS FOR DWELLING HOUSES AND PUBLIC BUILDINGS**

By State Construction Commission  
37.4 X 25.4 cm. pp. 50 1,500 copies  
Price: 15 won

This is aimed at eliminating the excessive diversity of wall parts and enabling mass production.

The standard sizes of blocks are 40 cm., 80 cm., 120 cm. and 160 cm. in width. Their height varies according to the number of stories. There are 17 kinds of blocks applicable to buildings of two or more stories.

No. 11 1958 (32) Copies wanted . . . . .

**STANDARD BLUEPRINTS OF WINDOWS AND DOORS FOR DWELLING HOUSES AND PUBLIC BUILDINGS**

By State Construction Commission  
37.4 X 25.4 cm. pp. 50 1,500 copies  
Price: 15 won

It contains designs of seven kinds of windows for dwelling houses and public buildings, six kinds of doors for dwelling houses and nine kinds of doors for public buildings. In these designs, unlike the old designs, double windows are fitted in a single frame.

No. 11 1958 (33) Copies wanted . . . . .

**STANDARDIZED BLUEPRINTS FOR RIB SLAB, FOUNDATION, ROOF, CORNICE AND BALCONY PARTS**

By State Construction Commission  
37.4 X 25.4 cm. pp. 60 1,500 copies  
Price: 10 won

The basic unit size of these construction parts is 40 cm. The lifting capacity of cranes has been taken into consideration.

The construction parts included in these designs will be of great help in the construction of provincial towns.

No. 11 1958 (34) Copies wanted . . . . .

**CITY PLANNING AND ARRANGEMENT**

By A. E. Stramentov and V. A. Buchagin  
Translated by Li Jin Kyoo

25.4 X 18.7 cm. pp. 274 1,500 copies

To be published in August

Estimated price: 80 won

It deals with numbers of important questions concerning city planning and city construction, including those on roads, buildings and other establishments, water supply and sewage systems, etc.

No. 11 1958 (35) Copies wanted . . . . .

**FOUNDATION FOR MINING ENTERPRISES BLUE-PRINTING**

By P. I. Gordesky

Translated by Chun Sung Kook

22.2 X 15.1 cm. pp. 432 1,500 copies

To be published in October

Estimated price: 120 won

It deals with the order and methods of drawing up blueprints for mining enterprises and touches upon basic questions on mining. It cites technical and economic indices on mineral ores.

It will be of great help for our designing engineers and construction workers in developing mines.

No. 11 1958 (36) Copies wanted . . . . .

**CALCULATION AND STRUCTURE OF VARIOUS PARTS OF PUBLIC BUILDINGS**

By E. E. Linovich

Translated by Kim Yoon Jal

25.4 X 18.7 cm. pp. 442 2,000 copies

To be published in July

Price: 150 won

It explains in detail the structure of the major parts of public buildings and relates the methods of calculating them in accordance with the "Construction Norms and Rules." There are numbers of tables which save the engineers much trouble in calculation.

Contents: Ground and foundation; pillars and walls; admitted stress calculation; reinforced concrete members; floor boards; stairs, and roof section.

No. 11 1958 (37) Copies wanted . . . . .

**ROAD PAVEMENT DESIGNING**

By N. N. Ivanov, A. N. Zashepin and four others

Translated by Pak Yung Whan

22.2 X 15.1 cm. pp. 260 1,000 copies.

To be published in July

Estimated price: 75 won

It is an important task of the designers and constructors of roads to improve the quality of pavement, prolong its duration and reduce construction cost at the maximum. This book will give them great help in carrying out this task.

It gives plain accounts of theoretical questions related to road construction and pavement and presents examples and standard schemes.

No. 11 1958 (38) Copies wanted . . . . .

**HANDBOOK OF DESIGNING MACHINE BUILDING PLANTS**

Translated by Hong Ho Shin

25.4 X 18.7 cm. pp. 698 3,000 copies

To be published in November

Price: 220 won

It contains various basic data necessary for designing woodworking, machine building, assembling, mechanic and repair shops. It tells, citing examples, how to select technical processes, distribute work shops and equipment.

This is the first of the two volumes.

No. 11 1958 (39) Copies wanted . . . . .

**HANDBOOK OF CAPITAL CONSTRUCTION BUDGET**

By E. S. Dunayee and six others

Translated by Choi Sung Don

22.2 X 15.1 cm. pp. 510 3,000 copies

This book gives plain answers to numbers of questions arising in drawing up capital construction budgets and dwells on the role and significance of budgets in capital construction. There are also tables and forms for budgets.

No. 11 1958 (40) Copies wanted . . . . .

**DESIGNING AND CONSTRUCTING BUILDINGS CONSISTING OF LARGE-SIZE BLOCKS AND PANELS**

By the Academy of Architecture, Ukrainian S.S.R.

Translated by Choi Chang Sik

22.2 X 15.1 cm. pp. 320 3,000 copies

Price: 100 won

It deals with questions on designing and constructing dwelling houses by pre-fabrication method and questions

on the introduction of pre-fabricated ferro-concrete members in construction, manufacture of standard elements, of buildings consisting of large-size blocks and panels, standardization of construction parts and manufacture of concrete and ferro-concrete products.

No. 11 1958 (41) Copies wanted . . . . .

#### **ORGANIZATION OF CONSTRUCTION**

By V. I. Popov

Translated by Kim Chang Ro

18.7 X 12.7 cm. pp. 128

5,000 copies

Price: 35 won

It contains treatises on the drawing up and application of technical process rules, organization of construction of machine repair shops, prevention of soil freezing, basic principles on laying crane tracks, etc.

No. 11 1958 (42) Copies wanted . . . . .

#### **PLANNING OF WORK IN CONSTRUCTION ORGANS**

Translated by Li Choong Kwon

22.2 X 15.1 cm. pp. 414

3,000 copies

To be published in August

Price: 120 won

It deals with the planning and organization of work in capital construction organs, such as the work carried out with labour process funds and circulating funds of construction organs, organization of construction processes and mechanization and administrative work.

No. 11 1958 (43) Copies wanted . . . . .

#### **SURVEY OF SOIL CONDITIONS**

By I. M. Litbinov

Translated by Pak In Bin

22.2 X 15.1 cm. pp. 200

1,000 copies

Price: 60 won

This book describes the methods of studying the relation between the nature of soil and construction which were tested by the Southern Institute of Construction Science, U.S.S.R., in open space and under production conditions.

No. 11 1958 (44) Copies wanted . . . . .

#### **WATER SUPPLY AND SEWAGE PIPE INSTALLING**

By I. M. Mobis

Translated by Li Hi Kyoan

22.2 X 15.1 cm. pp. 164 2,000 copies  
To be published in May  
Price: 45 won

It is devoted to methods of laying pipes made of different material. It also touches upon questions of safety devices and labour organization, describes mechanized processes of pipe laying and introduces results attained by front-rank workers.

No. 11 1958 (45) Copies wanted . . . . .

**PRODUCTION ORGANIZATION IN PRE-FABRICATED CONCRETE BLOCK FACTORIES**

By B. V. Stepanov  
Translated by Kim Chang Ho  
22.2 X 15.1 cm. pp. 260 2,000 copies  
To be published in July  
Price: 75 won

This book deals with basic principles on the organization of production, transport and warehouse management. It tells how to draw up plans of factories in connection with the struggle for increasing income, tapping inner reserves, increasing socialist accumulation and expediting the turn-over of circulating funds.

No. 11 1958 (46) Copies wanted . . . . .

**HOW TO ECONOMIZE ELECTRICITY IN CONSTRUCTION**

By A. B. Topolyansky  
Translated by Li Soon Duk  
22.2 X 15.1 cm. pp. 110 3,000 copies  
Price: 30 won

It analyses various causes of violation of electricity consumption norms being committed in construction sites and enterprises and answers a number of questions concerning economization of electricity, drawing on experiences gained by enterprises in Leningrad and other areas.

No. 11 1958 (47) Copies wanted . . . . .

**CONCRETE PAVEMENT OF URBAN ROADS**

By L. S. Akselod  
Translated by Kim Choong Man  
22.2 X 15.1 cm. pp. 200 1,500 copies  
To be published in September  
Price: 60 won

It deals with basic problems on concrete pavement of urban roads and systematically relates experiences in the course of paving work. Besides explaining methods of blueprinting and paving, it introduces methods of mechanized paving.

No. 11            1958 (48)            Copies wanted . . . . .

#### **STEAM BOILERS**

By V. N. Shretel

Translated by Kim Seung Won

22.2 X 15.1 cm.            pp. 450

3,000 copies

To be published in November

Price: 135 won

From this book the reader will be able to learn the main results of boiler technology attained in the Soviet Union. It will be of great help for one in practical work.

No. 11            1958 (49)            Copies wanted . . . . .

#### **CONSTRUCTION HANDBOOK**

By Kim Ho Joo

15.1 X 11.1 cm.            pp. 348

5,000 copies

To be published in October

Price: 100 won

Designed mainly for blueprinting workers, it contains the current state norms and regulations on designing as well as various indices. It will also give technical help to construction workers in their practical work.

No. 11            1958 (50)            Copies wanted . . . . .

#### **HOW TO REDUCE COST OF PRE-FABRICATED FERRO-CONCRETE BLOCKS**

By Li Soo Hak

18.7 X 12.7 cm.            pp. 160

3,000 copies

Price: 35 won

It describes various methods of reducing the cost of pre-fabricated construction parts, including ferro-concrete blocks, through rational labour organization and mechanization of production processes, as well as ways and means of introducing them in construction.

No. 11            1958 (51)            Copies wanted . . . . .

**APPLICATION OF PRE-FABRICATED FERRO-CONCRETE MEMBERS IN INDUSTRIAL CONSTRUCTION**

22.2 X 15.1 cm. pp. 348 3,000 copies  
To be published in September  
Price: 100 won

It introduces experiences in the introduction of ferro-concrete members in industrial construction, from the selection of concrete parts for specific construction projects to the ways and means of assembling different parts and the tools and machines needed.

No. 11 1958 (52) • Copies wanted . . . . .

**STANDARDS AND USE OF CONSTRUCTION TOOLS AND IMPLEMENTS**

By State Construction Commission  
22.2 X 15.1 cm. pp. 106 4,000 copies  
To be published in November  
Price: 30 won

It enumerates the standards of all the tools and implements being used in our construction organs, carrying pictures of them and explaining their use.

No. 11 1958 (53) Copies wanted . . . . .

**CONSTRUCTION AND EQUIPMENT OF FISHING PORTS**

By RIM Ryang Jai  
22.2 X 15.1 cm. pp. 260 1,500 copies  
To be published in November  
Price: 75 won

The question of the further increase of fishing output, which was discussed by the April 1957 Plenum of the C.C. of the Korean Workers' Party, is closely related to that of mechanizing the unloading work. This book treats the designing of harbour installations, particularly such land service installations as fish storages and processing shops, and deals with problems on the mechanization of unloading work. Comparing conditions of our fishing boats with those of foreign countries, the author indicates the basic direction of the construction and rehabilitation of fishing ports and their installations.

No. 11 1958 (54) Copies wanted . . . . .

**CHILDREN'S PARKS DESIGNING**

By Chang Moon Hi  
22.2 X 15.1 cm. pp. 124 10,000 copies

To be published in August

Price: 35 won

This book deals with the distribution of children's parks in cities and rural villages, the designing of parks of different scales and various installations for children's parks. The publication of this book should be said most timely, for there is an increasing demand for children's parks both in urban and rural areas.

No. 11            1958 (55)            Copies wanted . . . . .

**THEORY AND METHODS OF CONCRETE TAMPING  
DURING WINTER**

Part II

By S. A. Mirnov, T. D.

Translated by Kim Ryong Kwan

22.2 X 15.1 cm.

pp. 230

2,000 copies

Price: 65 won

It is devoted to questions on tamping concrete during winter without artificial heating device, steam process for concrete and ferro-concrete, electric heating methods, the production of concrete parts during winter, etc. It also tells how to deal with concrete mixed with chemicals and how to produce, carry, tamp, preserve and examine mixed concrete material.

No. 11            1958 (56)            Copies wanted . . . . .

**TECHNOLOGY OF LIGHTING BUILDINGS**

By N. M. Goshov

Translated by Li Byung Ho

22.2 X 15.1 cm.

pp. 140

2,000 copies

To be published in July

Price: 35 won

It gives a scientific analysis of various conditions for ensuring adequate lighting, natural and artificial, for buildings of different scales and purposes.

It will greatly help our designing workers in solving questions related to lighting.

No. 11            1958 (57)            Copies wanted . . . . .

**PRODUCTION OF FERRO-CONCRETE PARTS**

Translated by Kim Won Ki

22.2 X 15.1 cm.,

pp. 220,

3,000 copies

To be published in August

Price: 65 won

This book will provide the construction workers with valuable data for the industrialization of construction and mass production of pre-fabricated construction parts.

No. 11 1958 (58) Copies wanted . . . . .

**TECHNOLOGY OF CERAMICS AND FIRE-RESISTANT MATERIAL**

By P.P. Budnikov

Translated by Kim Choon Kyoo

22.2 X 15.1 cm. pp. 350 2,000 copies

To be published in September

Price: 100 won

It deals with the production, technical conditions, testing and use of fire-resistant bricks and ceramic wall material including various types of porous bricks and ornamental ceramic tiles.

At a time when our metal and chemical industries and capital construction require large quantities of fire- and chemical-resistant material, the publication of this translation should be said most timely.

No. 11 1958 (59) Copies wanted . . . . .

**TECHNOLOGY OF ASBESTOS CEMENT PRODUCTS**

By P. N. Sokolov

Translated by Kim Taik Ki

22.2 X 15.1 cm., pp. 350 1,000 copies

To be published in May

Price: 100 won

It relates the theory on the character and production methods of asbestos cement building material with high resistivity against fire, sun-shine, cold, rain and snow, including roof material, material for plastering water pipes and sewage pipes and material for switch boards and various electric appliances.

No. 11 1958 (60) Copies wanted . . . . .

**APPLIED HYDROLOGICAL GEOLOGY**

Translated by Kim Hwi

22.2 X 15.1 cm. pp. 250 2,000 copies

To be published in May

Price: 70 won

It introduces methods of hydrological-geological survey of various public buildings and hydro-power structure.

and deals with the effect of underground water upon buildings and with measures for eliminating the evil effect of underground water and preventing erosion and land-slide.

No. 11 1958 (61) . Copies wanted . . . . .

**POROUS CONCRETE AND ITS APPLICATION TO CONSTRUCTION**

By B. Skramtayev

Translated by Kim Bum Duk

22.2 X 15.1 cm. ~ pp. 100 3,000 copies

To be published in June

Price: 30 won

Light, porous concrete is of great importance in the implementation of the party policy of industrialization in the field of construction. This book gives the reader a general conception of light, porous concrete and describes its characteristics, production methods and use.

No. 11 1958 (62) Copies wanted . . . . .

**HYDRO-POWER STRUCTURE AND ITS GROUND AND FOUNDATION**

By Anisimov

Summarized and translated by Han Jung Hi

22.2 X 15.1 cm. pp. 180 2,000 copies

To be published in July

Price: 45 won

Drawing on the latest results of Soviet science and the rich experiences of the Soviet Union in this field, the author explains various questions on the foundation of hydro-power structure for the designers and construction engineers in this line.

The present translation, though it is summarized, will give great help to our engineers in carrying out the huge tasks set by the Party for the Five-Year Plan.

No. 11 1958 (63) Copies wanted . . . . .

**KNOWLEDGE OF IRRIGATION CONSTRUCTION**

By Um Myung Sup

22.2 X 15.1 cm. pp. 140 15,000 copies

To be published in August

Price: 40 won

This booklet is devoted to questions of designing and building medium and small scale construction systems.

It describes practical questions in an easily understandable language.

It also introduces advanced technique of the Soviet Union which can be introduced in our country right away.

It is suitable for lower level technical workers in the field of irrigation construction as well as agricultural cooperative members with middle school education.

No. 11            1958 (64)            Copies wanted . . . . .

#### **LARGE-SIZE BRICK BLOCKS**

By L. Onisik

Translated by Choi Yong Kak

18.7 X 12.7 cm.            pp. 88            3,000 copies

Price: 25 won

It dwells on the necessity of going over from the ordinary brick laying method to the assembling of large-size brick blocks in construction and introduces experiences gained at the construction sites of the Soviet Union.

No. 11            1958 (65)            Copies wanted . . . . .

#### **MAGNESIA SULPHIDE CEMENT**

By Yoon Jong Heum

22.2 X 15.1 cm.            pp. 180            3,000 copies

To be published in September.

It deals with the production methods, character and application of magnesia sulphide cement. It also introduces methods of testing magnesia sulphide cement and structural parts made of it.

No. 11            1958 (66)            Copies wanted . . . . .

#### **HOW TO UTILIZE WHITE CLAY IN CONSTRUCTION**

By Won Joon Sun

22.2 X 15.1 cm.            pp. 600            15,000 copies

To be published in November

Price: 180 won

The publication of this book is aimed at helping agricultural cooperative members in extensively utilizing white clay, the important natural building material found in any part of the country, in the provincial town and rural village construction.

No. 11            1958 (67)            Copies wanted . . . . .

**HANDBOOK OF CITY GARDENING**

By Li Yoon and Yoon Chang Sik  
22.2 X 15.1 cm. pp. 400 1,000 copies  
To be published in October

Classification and characteristics of city gardening; significance of parks and green belts in cities, basic principles and norms in designing parks and gardens, general conception of gardening art, technical processes of laying parks and green belts, management of parks and gardens, etc.

The book also dwells on the botanical characteristics and ornamental value of trees and plants used in city gardening.

No. 11 1958 (68) Copies wanted . . . . .

**QUALITY OF WATER IN KOREA**

By Choi Do Won  
22.2 X 15.1 cm. pp. 348 1,500 copies  
To be published in November  
Price: 100 won

It presents a thorough analysis of the quality of water of our country, showing the degree of turbidity, colour, chloric and sulphuric acid ion contents, nitrogen and KMnO<sub>4</sub> consumption, iron content, acid degree and alkaline degree of the drinking water, industrial water, water of lakes and rivers, fish breeding pond water, mineral spring water, water for railway locomotives etc.

No. 11 1958 (69) Copies wanted . . . . .

**WATER SERVICE IN SMALL TOWNS AND RURAL VILLAGES**

By Choi Duk Soon  
22.2 X 15.1 cm. pp. 90 10,000 copies  
To be published in August  
Price: 25 won

It is aimed at giving general conception of water-works in small towns and rural villages to technical workers of state farms and agricultural cooperatives as well as workers in the field of water service. It deals with the system and network of service water, water drawing equipment, purification of water, management of water drawing and water pumping installations and the question of service water in agro-stock farms and

agricultural cooperatives, particularly those in the areas where the quality of water is bad.

No. 11 1958 (70) Copies wanted . . . . .

**PURIFICATION OF DRINKING WATER AND INDUSTRIAL WATER**

By V. F. Kodinov

Translated by Choi Duk Soon

22.2 X 15.1 cm. pp. 123 1,500 copies

Price: 35 won

It treats equipment for purifying service water and industrial water, calculations for structure needed in the purification, equipment for the congelation of floating material mixed in water, calculations for filters and for equipment needed in sterilizing and softening water, etc.

No. 11 1958 (71) Copies wanted . . . . .

**FLOWER GROWING TECHNIQUE**

By Li Yoon

22.2 X 15.1 cm. pp. 260 3,000 copies

To be published in September

Price: 65 won

It deals with basic principles of flower gardening, flowers cultivated in gardens and within doors, botanical characteristics of flowers popular in Korea, question of managing green-rooms, questions of soil, fertilizer, insecticide, etc.

No. 11 1958 (72) Copies wanted . . . . .

**HANDBOOK OF CITY MANAGEMENT (Vol. III)**

By Ministry of City Management, R.S.F.S.R.

Translated by Kim Chang Ro

22.2 X 15.1 cm. pp. 330 1,000 copies

Price: 65 won

The present volume is divided into two sections — one dealing with the sewage system and the other dealing with laundry shops and bath houses.

No. 11 1958 (73) Copies wanted . . . . .

**HANDBOOK OF CITY MANAGEMENT (Vol. II)**

By Ministry of City Management, R.S.F.S.R.

Translated by Kim Tai KH

22.2 X 15.1 cm. pp. 520 2,000 copies

Price: 650 won

Just published. This volume is divided into three sections — water supply, traffic and electricity supply.  
No. 11 1958 (74) Copies wanted . . . . .

**MANAGEMENT OF CITY ROADS**

By S. M. Bagudasarov and Y. S. Rantsberg

Translated by Pak Ji Sung

22.2 X 15.1 cm. pp. 328 1,000 copies

Price: 100 won

It dwells on practical and technical questions related to the management of city roads — carriage ways and side walks — and installations along the roads.

No. 11 1958 (75) Copies wanted . . . . .

**SERVICE WATER, SEWERAGE AND DRAINAGE SYSTEMS HOUSES**

By P. A. Spishnov and A. I. Shneyerov

Translated by Kim Sam Suk

22.2 X 15.1 cm. pp. 338 2,000 copies

Price: 100 won

It contains descriptive and graphic data on the service water, sewerage and drainage systems of houses. The descriptive data include state norms and instructions.

No. 11 1958 (76) Copies wanted . . . . .

**ADVANCED CONSTRUCTION**

25.4 X 18.7 cm. pp. 65 2,000 copies

Price: 40 won

It introduces advanced experiences in construction in the Soviet Union and other fraternal countries for helping our constructors in solving various technical and theoretical questions on construction.

No. 11 1958 (77) Copies wanted . . . . .

**CONSTRUCTION REPORT**

Price: 20 won

22.2 X 15.1 cm. pp. 60 2,000 copies

It is published monthly for workers and technicians in construction organs. It introduces advanced experiences and renovations attained at construction sites and construction organs.

No. 11 1958 (78) Copies wanted . . . . .

**CHARTS ON CONSTRUCTION TECHNIQUE**

74.8 X 50.8 cm. 10,000 copies

Estimated price: 10 won

It will be published monthly for introducing through photographs and diagrams the progress of construction and experiences gained at construction sites.

No. 11            1958 (79)            Copies wanted . . . . .

**TECHNICAL PROCESS OF PRODUCTION OF PRELIMINARY STRESS FERRO-CONCRETE PRODUCTS**

By U.S.S.R. Ferro-concrete Products and Non-mineral Material Institute under the Technical Department, U.S.S.R. Ministry of Building Material Industry.

Translated by Kim Sun Ok

25.4 X 18.7 cm.            pp. 70            2,000 copies

It introduces the technical process of the production of preliminary stress ferro-concrete parts, which was first tested in 1956 in reinforced concrete factories of Moscow and Leningrad. It presents designs and pictures of concrete parts moulds and other production equipment.

No. 11            1958 (80)            Copies wanted . . . . .

**CONSTRUCTION KNOWLEDGE**

By the State Construction Press

18.7 X 12.7 cm.            pp. 140            2,000 copies

It touches upon basic problems in the fields of (1) construction economy, (2) designing, (3) construction process, (4) building material, (5) industrial construction, (6) rural village construction and (7) city construction. It also plainly describes important questions underlined by the October 1957 Plenum of the C. C. of the Korean Workers' Party such as the standardization of construction and mechanization of construction.

No. 11            1958 (81)            Copies wanted . . . . .

House**

**KUKZE SEDJOM**

**Pyongyang, Korea**

Sanitized Copy Approved for Release 2010/05/11 : CIA-RDP80T00246A047200020001-5

This catalogue contains books published by the  
Labour Technical Books Publishing House in 1958

Sanitized Copy Approved for Release 2010/05/11 : CIA-RDP80T00246A047200020001-5

## **TECHNICAL BOOKS ON MACHINE ENGINEERING**

### **OPERATION OF MACHINE TOOLS**

By B.A. Alekyev and A.I. Rots  
22.2 X 15.1 cm., 370 pp.

This textbook for technical schools gives a general conception of machine tools and implements. It tells how to handle various types of grinding and metal cutting machines and measuring instruments.

..... No. 17 1958 (1) Copies wanted .....

### **TECHNICAL HANDBOOK FOR MACHINE BUILDING CHECKERS**

By I.P. Jimin and I.V. Jignatov  
22.2 X 15.1 cm., 400 pp.

Designed for students for technical schools and machine building checkers, this book tells how to read blueprints, handle instruments and conduct technical examinations.

..... No. 17 1958 (2) Copies wanted .....

### **REPAIR OF INDUSTRIAL EQUIPMENT**

By A.A. Ogvetimsky  
22.2 X 15.1 cm., 600 pp.

This textbook for students of technical schools deals with the mechanism of various types of machines and how to operate and repair them. It also explains in detail

the function of different accessory parts of machines, and how to replace them.

No. 17 1958 (3) Copies wanted . . . . .

#### **MILLING PROCESS**

By S.B. Aburtin  
22.2 X 15.1 cm., 550 pp.

This technical school textbook is aimed at giving general conception of milling work and milling machines.

No. 17 1958 (4) Copies wanted . . . . .

#### **TECHNICAL BOOKS ON METALLURGY THE ELECTRIC WORKER**

By Oh Min Suk  
22.2 X 15.1 cm., 330 pp.

This book tells how to operate electric furnaces including the modern, standard-size 3-phase electric steel furnace. It also deals with labour organization and safety regulations in steel shops.

No. 17 1958 (5) Copies wanted . . . . .

#### **THE STEEL ROUGHING WORKER**

By Pak Chang Mook  
22.2 X 15.1 cm., 200 pp.

It deals with teaming and roughing processes for steel production, equipment and material in these processes, repair of equipment and instruments and measures for the prevention of accidents.

No. 17 1958 (6) Copies wanted . . . . .

#### **GENERAL METALLURGY**

By Pak Soe Jung  
22.2 X 15.1 cm., 300 pp.

It gives the reader general conception of various electric furnace work processes as well as of the metallurgy of heavy and light nonferrous metals and rare metal. It

also touches upon questions of fuel for metal working and of ore processing.

No.17 1958 (7) Copies wanted . . . . .

**THE FORGING WORKER**

By Cho Sang Joon  
22.2 X 15.1 cm., 450 pp.

A textbook for technical schools, this book deals with various questions related to forging work, including those on hand press, classification of steel, material and fuel, heating system, structure of metal, effect of forging work upon the quality of machines, punching process, process of forging instrumental steel, etc.

No.17 1958 (8) Copies wanted . . . . .

**COPPER ELECTROLYSER**

By Yoo Bong Doe  
22.2 X 15.1 cm., 200 pp.

This book is published for providing workers' school students with basic theoretical knowledge of copper electrolysis.

No. 17 1958 (9) Copies wanted . . . . .

**ZINC ELECTROLYSER**

22.2 X 15.1 cm., 300 pp.

It deals with the basis processes of zinc smelting, zinc ore fusing, safety devices in zinc smelting shops.

No. 17 1958 (10) Copies wanted . . . . .

**METAL WELDING AND CUTTING**

By Glis Manenko  
22.2 X 15.1 cm., 480 pp.

It deals in detail with various welding methods, including under water welding, oxygen welding and arc welding, and equipment needed for them.

No. 17 1958 (11) Copies wanted . . . . .

### **METAL HEATING FURNACE OPERATOR**

By K.M. Pakhaluyev  
22.2 X 15.1 cm.,

It deals with the nature of steel, conditions for heating steel to be rolled, fuel and its combustion process in combustion chambers, mechanism of metal heating furnaces and their operation.

It is suitable for a textbook for workers' schools.

No. 17      1958 (12)      Copies wanted . . . .

### **TECHNICAL BOOKS ON MINING**

#### **THE DRILLING WORKER**

By G.M. Belgin  
22.2 X 15.1 cm.,      370 pp.

This book is published for providing the drilling workers in the field of mining and construction as well as students majoring in mining with general conception of the structure of the rock, the drilling work and the characteristics of rocks, kinds of machines in drilling, ways of their operation, breakdown and repair of machines, rational organization of tunneling work, safety devices in tunneling work, etc.

No. 17      1958 (13)      Copies wanted . . . .

#### **THE TEST DRILLER**

By Kang Chu Woon  
22.2 X 15.1 cm.,      300 pp.

It deals with various questions related to test drilling such as the structure of the rock, the drilling work and the characteristics of rocks, machines used in drilling, measures for preventing breakdown, repair of machines and rational organization of drilling work.

No. 17      1958 (14)      Copies wanted . . . .

#### **TECHNICAL HANDBOOK FOR THE BLASTING WORKERS**

22.2 X 15.1 cm.,      250 pp.

It deals with the composition of mineral ores, their variety and nature, blasting methods to be applied to different rocks, equipment used in blasting, powder charging in open air and inner-pit blasting, etc.

No. 17 1958 (15) Copies wanted . . . .

#### **THE WINCH OPERATOR**

By V.D. Kornikov  
22.2 X 15.1 cm., 370 pp.

This book, designed for technical training courses in mines and construction organs, tells how to operate various types of winches and how to operate them and repair them.

No. 17 1958 (16) Copies wanted . . . .

#### **SAFETY DEVICES IN MINING**

22.2 X 15.1 cm., 480, pp. 30,000 copies

This is a translation of a book under the same title by K.V. Pavlov. It deals with various questions related to safety devices and labour protection in mining.

No. 17 1958 (17) Copies wanted . . . .

#### **LAND SURVEYOR**

By Choi Sung Ryong  
22.2 X 15.1 cm., 400 pp.

It plainly describes the basic principles of surveying, ways of handling surveying instruments and practical questions on various kinds of surveying. It is suitable for workers studying in technical training courses as well as students of technical schools.

No. 17 1958 (18) Copies wanted . . . .

#### **TECHNICAL BOOKS ON CHEMISTRY**

##### **SODA PRODUCTION ENGINEERING**

22.2 X 15.1 cm., 250 pp.

This is a textbook for technical training courses for skilled workers of soda-producing factories.

It deals with characteristics of raw material for soda production, basic principles of soda production, advanced production methods employed in our factories, equipment and machines used there, etc.

No. 17 1958 (19) Copies wanted . . . .

#### **SYNTHETIC PHARMACEUTICS**

22.2 X 15.1 cm., 250 pp.

This is a textbook for workers' training courses in this field. It plainly describes theoretical and practical questions related to the production of synthetic medicine.

No. 17 1958 (20) Copies wanted . . . .

#### **GALENICAL PHARMACEUTICS**

By Kim Eun Sung  
22.2 X 15.1 cm., 250 pp.

This teaching materials for training pharmacists gives an outline of galenical pharmaceuticals and introduces the main medicaments produced in Korea and the methods of producing them. It also touches upon the equipment of our pharmaceutical factories.

No. 17 1958 (21) Copies wanted . . . .

#### **TECHNICAL BOOKS ON TEXTILE INDUSTRY SILK MILL WORKERS**

By Kong Kwan Ho  
22.2 X 15.1 cm., 300 pp.

This is a textbook for silk weavers training courses. In its first part the book treats the preparatory course for weaving and in its second part it deals with the production processes, equipment and various questions related to production.

No. 17 1958 (22) Copies wanted . . . .

#### **THE TAILORING WORKER**

22.2 X 15.1 cm., 375 pp.

This textbook for clothing factory workers technical training courses describes in detail the production methods extensively employed in our clothing factories, the methods of cutting clothes most popular in Korea, the mechanism and operation of equipment, safety devices in factories, etc.

No. 17 1958 (23) Copies wanted . . . .

**TECHNICAL BOOK ON MARINE INDUSTRY  
THE FISHERY WORKER**

By Li Kil Yung and Moon Ri Kak  
22.2 X 15.1 cm 500 pp.

Designed for workers' school students and other workers in this field, this book plainly describes various questions related to the fishery in the eastern and western seas in Korea, including those on fishing grounds, fishing season, fishing equipment and tackle and diverse fishing methods.

No. 17 1958 (24) Copies wanted . . . .

**OPERATION OF FISHING BOATS**

By Li Jung Deuk  
22.2 X 15.1 cm., 325 pp.

Designed for workers studying in technical training courses, this book gives plain accounts of the methods of operating various types of fishing boats — engine boats and sail boats — ways of handling equipment, etc. It also touches upon precaution measures against maritime accidents as well as Korean and international maritime regulations.

No. 17 1958 (25) Copies wanted . . . .

**TECHNICAL BOOKS ON ELECTRIC INDUSTRY  
ELECTRIC ENGINEERING**

By Toh Ji Hyun

This book is written for students of technical schools who are not specializing in electric industry.  
It gives general conception of electricity and describes

the mechanism of transformer equipment, motors, A.C. and D.C. generators and electric appliance.

No. 17 1958 (26) Copies wanted . . . .

**THE ELECTRIC MACHINERY ASSEMBLING WORKER**

22.2 X 15.1 cm. 370 pp.

It plainly describes the mechanism and use of all types of industrial electric equipment and methods of assembling, installing and repairing them.

No. 17 1958 (27) Copies wanted . . . .

**ELECTRIC ENGINEERING FOR MINING**

By Kim Il Do  
22.2 X 15.1 cm. 300 pp.

The book gives an elementary outline of the basic electrical theory and describes the principles of operation of the electric machinery used in coal mining. It is a teaching material for those engaged in the coal and metal mining.

No. 17 1958 (28) Copies wanted . . . .

**AUTOMOBILE ELECTRIC EQUIPMENT**

By Li Ha Jin  
22.2 X 15.1 cm. 370 pp.

It gives a plain account of the mechanism of the electric equipment of automobiles and tells how to check and repair it. It is a reference book for workers and mechanics in this field.

No. 17 1958 (29) Copies wanted . . .

**TRANSFORMER SUB-STATION ATTACHED TO TRACTION ENGINE**

By Hwang Boo  
22.2 X 15.1 cm. 300 pp.

It deals with the operation and repair of transformer

sub-stations attached to electric locomotives and other electric traction-engines.

No. 17 1958 (30) Copies wanted . . . .

**ELECTRIC EQUIPMENT FOR INDUSTRIAL ENTERPRISES**

Translated By O Ok Sun  
22.2 X 15.1 cm. 350 pp.

It treats the installation of electricity in industrial enterprises, safety devices against electric accidents, electric lighting, installation and maintenance of indoor lines and distribution lines, repair of motors and transformers.

No. 17 1958 (31) Copies wanted . . . .

**ELECTRIC EQUIPMENT OF SHIPS**

By Su Sung Chan and Yoo Kyung Kwak  
22.2 X 15.1 cm. 300 pp.

It gives plain accounts of the mechanism and operation of the power generating and distributing installations, electric lighting equipment and batteries of various types of ships, including fishing boats.

No. 17 1958 (32) Copies wanted . . . .

**TECHNICAL BOOKS ON COMMUNICATION  
THE TELECOMMUNICATION WORKER**

By Li Jung Ik  
22.2 X 15.1 cm. 530 pp.

It is a reference book for workers studying in technical training courses.

Main contents:

Part 1 — Urban and suburban telecommunication lines and their maintenance and repair; Measuring of D.C. and A.C.; Fundamentals of Electric Engineering, etc.

Part 2 — Suburban telephone lines and their operation; Various types of switch boards, Equipment of long-distance telephone offices.

No. 17 1958 (33) Copies wanted . . . .

### **THEORY ON TELECOMMUNICATION**

By Pak In Kwon  
22.2 X 15.1 cm. 500 pp.

A textbook for technical schools, this book plainly expounds the theory on telecommunication in close combination with practical questions and physics, avoiding higher mathematical calculations.

No. 17 1958 (34) Copies wanted . . . .

### **TELECOMMUNICATION AND TELEPHONE EQUIPMENT**

Compiled by Kim Man Kyoo  
22.2 X 15.1 cm. 550 pp.

This book deals with the theoretical and practical questions which the 7th grade telecommunication worker should know, including the mechanism apparatuses, their operation, maintenance and repair, measurement required for the successful ensuring of telecommunication.

No. 17 1958 (35) Copies wanted . . . .

### **ORGANIZATION OF TECHNICAL WORK IN RAILWAY STATIONS**

22.2 X 15.1 cm. 325 pp.

It covers such questions as the classification of railway stations, distribution of marshaling yards, operation of signaling installations, checking of rolling stock and other technical work in railway stations.

No. 17 1958 (36) Copies wanted . . . .

### **REPAIR OF ELECTRIC LOCOMOTIVES**

By Choi Sun Bong  
22.2 X 15.1 cm. 370 pp.

It deals with the operation of electric locomotives, regular repair and overhaul of engines, the inspection of conditions of locomotive motors, brakes, etc. It tells how to ensure rational conditions for repairing and overhauling work and safety conditions.

It is suitable for students of technical training courses and technical schools.

No. 17      1958 (37)      Copies wanted . . . .

#### **CARPENTRY FOR CARRIAGES AND WAGONS**

By Kim Soon Chul  
22.2 X 15.1 cm.      370 pp.

It plainly describes the selection and preservation of wood for carriages and wagons and the handling equipment and tools for processing wood, including round saw, mechanized planes and carpenters' milling machines. It also tells how to repair the wooden parts of freight wagons and passenger carriages and how to organize labour rationally.

No. 17      1958 (38)      Copies wanted . . . .

#### **TECHNICAL BOOKS ON AUTOMOBILE TRANSPORTATION**

##### **AUTOMOBILE MAINTENANCE AND REPAIR**

By Pak Jai Soo  
22.2 X 15.1 cm.      450 pp.

It deals with the work of automobile administrative organs as well as the mechanism, maintenance and repair of automobiles and their machines including engines, batteries and generators. It also touches upon motorcycle engines and other inner combustion engines.

No. 17      1958 (39)      Copies wanted . . . .

#### **TECHNICAL BOOKS ON CAPITAL CONSTRUCTION**

##### **MATERIAL FOR WOODWORKING**

By G.G. Modlob  
22.2 X 15.1 cm.      250 pp.

It deals with fundamental questions on material which the carpenters should know, such as the structure and characteristics of different kinds of wood used for different purposes, the selection and rational utilization of

wood and the ways of preserving it. It also touches upon other material necessary for carpentry—metal fittings, gelatin, etc.

No. 17      1958 (40)      Copies wanted . . . .

#### **CARPENTRY AND MOULD MAKING WORK**

By A.O. Gravich  
22.2 X 15. cm.      450 pp.

##### **Main contents:**

Characteristics of different kinds of lumber used in carpentry; Electric instruments and hand tools used in woodworking; Modern wood processing machines and their operation; Advanced work methods of frontrank carpenters in making various kinds of wood structure.

No. 17      1958 (41)      Copies wanted . . . .

#### **PLASTERING**

By Li Soo Joon  
22.2 X 15.1 cm.      290 pp.  
A textbook for technical training courses.  
Main contents:

Arrangement of the place for plastering work; Instruments and tools used in plastering; Dry and wet plastering methods; Plastering work in winter time; Mechanization of plastering; Handling of mortar pumps and spray-or; Repair of wrong work; Regulation on plastering work.

No. 17      1958 (42)      Copies wanted . . . .

#### **TEACHING MATERIAL ON LABOUR ECONOMY**

##### **ECONOMICS OF LABOUR**

Book 1: 22.2 X 15.1 cm.      260 pp.  
Book 2: 22.2 X 15.1 cm.      300 pp.  
7,000 copies each

This is a translation of "ЭКОНОМИКА ТРУДА" by A.S. Kudlyavchev and others, which was adopted as a textbook by the Moscow Trade Higher School Council.

##### **Main contents:**

Socialist labour and its organization in the USSR;

Labour productivity and cause of the rise in the USSR;  
Labour-standardization and its organization at industrial  
enterprise in the USSR.

No. 17 1958 (43) Copies wanted . . . .

**ORGANIZATION AND PLANNING OF LABOUR IN  
INDUSTRIAL ENTERPRISES**

22.2 X 15.1 cm. 280 pp. 3,000 copies

A reference book for labour administrative workers of  
industrial enterprises.

It deals with various theoretical and practical ques-  
tions related to labour organization and planning, includ-  
ing basic principles of socialist labour organization, la-  
bour discipline, division of labour, organization of work  
and work day, technical training.

No. 17 1958 (44) Copies wanted . . . .

**CURRENT WAGE SYSTEM IN THE D.P.R.K.**

18.7 X 12.7 cm. 280 pp. 3,000 copies

It gives a concrete account of the current wage system  
of the D.P.R.K. and its practical application.

No. 17 1958 (45) Copies wanted . . . .

**QUESTIONS AND ANSWERS ON LABOUR LAW**

22.2 X 15.1 cm. 140 pp. 5,000 copies

Questions and answers on the Labour Law and its ap-  
plication—on the wage payment, compensation payment  
and others.

No. 17 1958 (46) Copies wanted . . . .

**PRODUCTION KNOWLEDGE**

22.2 X 15.1 cm. 60 pp. 10,000 copies

"Production Knowledge" is published six times a year  
for providing the workers studying in technical training  
courses with knowledge of natural science and technology  
necessary for production activities.

Each article included in this book is so short that it

can be read in 5-10 minutes. The description is concise.  
There are many illustrations.

No. 17 1958 (47) Copies wanted . . . .

#### **REFERENCE BOOKS**

##### **REFERENCE MATERIAL FOR LABOUR RESERVES TRAINERS**

22.2 X 15.1 cm. 110 pp.

It contains articles on administration of trade union  
educational organizations and introduces advanced ex-  
periences gained in this field.

No. 17 1958 (48) Copies wanted . . . .

##### **REFERENCE MATERIAL FOR LABOUR RESERVES TRAINERS**

22.2 X 15.1 cm. 100 pp. 2,000 copies

It will be useful not only for those engaged in train-  
ing labour reserves but also for teachers of schools of  
common education which include production technique in  
their curricula.

No. 17 1958 (49) Copies wanted . . . .

#### **ILLUSTRATIONS FOR SCHOOL USE**

##### **MACHINE BLUEPRINTING**

74.8 X 50.8 cm. 38 sheets  
With a separate description book (130 pages)

It presents examples of drawing external and internal  
views of machines and their parts. A description in a  
separate book form is attached to it for helping the  
teachers.

No. 17 1958 (50) Copies wanted . . . .

##### **FINISHING AND ASSEMBLING WORK**

74.8 X 50.8 cm. 25 sheets  
With a separate description book (50 pages)

Illustrations for school use. They show in detail the finishing and assembling processes. A separate description book (50 pages) is attached to it.

No. 17 1958 (51) Copies wanted . . .

#### **HIGH SPEED METAL CUTTING**

74.8 X 50.8 cm. 27 sheets  
With a separate description book (50 pages)

Illustrations showing various parts of high speed metal cutting machines and methods of operating them.

No. 17 1958 (52) Copies wanted . . . .

#### **THERMO-ENGINEERING**

74.8 X 50.8 cm. 15 sheets

Illustration of machines and tools used in thermo-engineering.

No. 17 1958 (53) Copies wanted . . . .

#### **PRE-FABRICATED CONSTRUCTION**

74.8 X 50.8 cm. 25 sheets  
With a separate description book (100 pages)

Illustrations showing various processes of pre-fabricated construction and comparison of the pre-fabrication method with the conventional methods. A separate description is attached to it.

No. 17 1958 (54) Copies wanted . . . .

#### **REFERENCE BOOKS FOR STATE TECHNICAL QUALIFICATION EXAMINATION**

##### **RECKONING ON THE ABACUS**

By the State Technical Commission  
22.2 X 15.1 cm. 160 pp. 8,000 copies  
Estimated price: 30 won

It gives detailed accounts of the art of reckoning on the abacus, from the fingering and A.B.C. or reckoning to the complicated calculations.

**INDUSTRIAL BOOK-KEEPING**

By Choi Man Kum  
22.2 X 15.1 cm. 450 pp. 5,000 copies

It gives a detailed account of the theory and practice of industrial book-keeping in accordance with the current book-keeping system of Korea.

No. 17 1958 (56) Copies wanted . . . .

**A COLLECTION OF PROBLEMS ON CALCULATIONS  
FOR PLANNING IN INDUSTRIAL ENTERPRISES**

By Kim Ik Soo  
22.2 X 15.1 cm. 220 pp. 1,500 copies

It give concrete answers to numbers of problems on calculations for planning in industrial enterprises.

No. 17 1958 (57) Copies wanted . . . .

**PLATE PRINTING**

By Pak Kun Bin  
22.2 X 15.1 cm. 150 pp.

It consists of three sections: "Preparation or printing plates," "preparation of printing machines" and "printing."

It introduces advance printing methods of the Soviet Union.

No. 17 1958 (58) Copies wanted . . . .

**FOUNDATION OF VETERINARY SCIENCE**

By Kim Jin Chun  
22.2 X 15.1 cm. 160 pp.

It explains for the state technical examination candidates. The foundation of the veterinary science, biochemistry, epidemic and non-epidemic diseases of livestock, etc.

No. 17 1958 (59) Copies wanted . . . .

**DYNAMICS OF MATERIAL (questions and answer)**

By Kim Duk Mo  
22.2 X 15.1 cm. 470 pp. 2,000 copies

This book is so designed as to enable the workers preparing for state examinations to solve on their own various questions similar to those included in it.

No. 17 1958 (80) Copies wanted . . . .

**THERMO-ENGINEERING (Book I)**

By Choi Soo Am  
22.2 X 15.1 cm. 356 pp. 2,000 copies

The A.B.C. of thermo-engineering for those preparing for technicians examinations in the field of machine and chemical industries.

No. 17 1958 (61) Copies wanted . . . .

**COAL-MINING**

By Han Kwan Bin  
22.2 X 15.1 cm. 172 pp. 1,500 copies

This book introduces advanced theory on coal extraction in conformity with conditions in Korea. With exercise problems and answers.

No. 17 1958 (62) Copies wanted . . . .

**AUTOMOBILE CHASSIS ENGINEERING**

25.4 X 18.7 cm. 338 pp. 1,000 copies

It deals with the basic theory and practical questions on automobile chassis. It is a reference book for those preparing for mechanic's examinations.

No. 17 1958 (63) Copies wanted . . . .

**AGRICULTURAL MANAGEMENT**

25.4 X 18.7 cm. 516 pp. 1,000 copies

The book consists of three sections: cooperative farms, state farms, and farm machine hire stations.

It gives concrete answers to theoretical and practical

questions on management of agricultural cooperatives and enterprises.

No. 17 1958 (64) Copies wanted . . . .

**PLANT PROTECTION (in two volumes)**

25.4 X 18.7 cm. 2,000 copies

Vol. I: pp. 196; price, 89 won

Vol. II: pp. 273; price, 117 won

It covers botanical pathology, entomology, fight against blight and other theoretical and practical questions related to the protection of grain, industrial crops, vegetables, fruit, mulberry trees, timber, etc.

No. 17 1958 (65) Copies wanted . . . .

**PROTECTION AND AUTOMATION DEVICES**

By Hyun Sang Kyoo

25.4 X 18.7 cm. 156 pp. 1,000 copies

Price: 93 won

It is designed for the workers in the field concerned as well as for those preparing for state qualification examinations.

No. 17 1958 (66) Copies wanted . . . .

**MATERIAL FOR ELECTRIC APPLIANCES**

By Moon Il Hoon

25.4 X 18.7 cm. 180 pp. 1,200 copies

Designed for those preparing for technicians' qualification examinations, this book gives concrete accounts of the physical and chemical characteristics of various material used in electric appliances.

No. 17 1958 (67) Copies wanted . . . .

**ELECTRIC MACHINES AND APPLIANCES**

By Bai Joon Ho and three others

25.4 X 18.7 cm. 700 pp. 1,000 copies

It deals with D.C. and A.C. electric machines, transformers, oil brakes and other electric appliances.

With exercise problems and answers.

No. 17 1958 (68) Copies wanted . . . .

**METAL-INDUSTRIAL FURNACES**

25.4 X 18.7 cm. 400 pp. 1,000 copies

Though it is designed for those preparing for engineer's examinations, this book will be useful also for students of colleges and technical schools.

No. 17 1958 (69) Copies wanted . . . .

**QUANTITATIVE ANALYSIS**

By Hwang Hong Kil  
25.4 X 18.7 cm. 568 pp. 2,000 copies

This book is suitable for candidates for laboratory workers as well as for those preparing for chemical engineers examinations.

No. 17 1958 (70) Copies wanted . . . .

**SPINNING MATERIALS**

By Kim Ung Ryong  
25.4 cm. X 18.7 cm. 350 pp. 600 copies

Designed for those preparing for textile technician's examinations, this book gives concrete accounts of the characteristics of various fibre. It also deals with various textile goods including knit goods.

No. 17 1958 (71) Copies wanted . . . .

**THEORY ON SHIPBUILDING**

25.4 cm. X 18.7 cm. 176 pp. 700 copies

It deals with theoretical and practical questions on ship designing and shipbuilding. It will be helpful, in particular, in enhancing calculation capacity.

No. 17 1958 (72) Copies wanted . . . .

#### **ICHTHYOLOGY**

225.4 cm. X 18.7 cm. 271 pp. 700 copies  
Estimated price: 112 won

It deals with physiology, organism, distribution and classification of fish, particularly those species found in the seas of Korea. It also touches upon pisciculture and locating of fish shoals.

No. 17 1958 (73) Copies wanted. . . . .

#### **FIBRE CHEMISTRY AND INDUSTRY**

By Choi Jai Sik  
25.4 cm. X 18.7 cm. 453 pp. 300 copies

A reference book for those preparing for state qualification examinations, it deals with the texture and structure of plant fibre, dyeing and printing, finishing process of cloth, etc.

No. 17 1958 (74) Copies wanted. . . . .

#### **FOUNDRY PRODUCTION**

By Kim Chang Keun  
25.4 cm. X 18.7 cm. 356 pp. 800 copies  
Price: 247 won

It deals with the basic theory of foundry production, manufacture of moulds, production of cast iron, ferrous and non-ferrous metal casting, etc.

No. 17 1958 (75) Copies wanted. . . . .

#### **GEOLOGI FOR CAPITAL CONSTRUCTION**

By Kim Duk Sung  
25.4 cm. X 18.7 cm. 290 pp. 1,000 copies  
Price: 117 won

It deals with geology in general, under-ground water, survey of geological conditions for erecting buildings, etc. It also touches upon the nature of soil, minerals and rocks, land sliding, geological map and so forth.

No. 17 1958 (76) Copies wanted. . . . .

**MATERIAL FOR THE OPERATION AND REPAIR OF  
AUTOMOBILES**

By Wi Chul Hyun  
25.4 cm. X 18.7 cm. 439 pp.

It deals with various kinds of fuel for automobile, including charcoal and wood, as well as various accessory parts and other metal and non-metal material for the repair of automobiles.

No. 17 1958 (77) Copies wanted. . . . .

**INTERNAL COMBUSTION ENGINES AND THEIR  
OPERATION**

25.4 cm. X 18.7 cm. 290 pp. 1,000 copies  
Price: 117 won

Written for those preparing for state qualification examination, this book deals with theoretical questions on internal combustion engines and calculations of their solidity.

It will be helpful also for workers handling various types of internal combustion engines in machine plants, shipyards, automobile works and farm machine plants.

No. 17 1958 (78) Copies wanted. . . . .

**CAPITAL, Vol. 3, Part 1**

By Karl Marx

18.8 X 12.8 cm. 700 pp. 20,000 copies

Price: 120 won

To be issued: 4th quarter, 1958

The present volume includes chapter from 1 to 28 out of the 52 chapters in vol. 3 dealing with the questions of the production and circulation of capital and makes an analysis of various forms of capital in the capitalist society.

It analyses surplus value; the rate of surplus value which forms profit and the rate of profit in the capitalist society, the rule of average rate of profit, fall in the rate of profit; source and essence of the commercial profit as a kind of surplus profit, which is transferred from industrial capitalists to commercial capitalists; and the accumulation and role of the monetary capital are analysed.

No. 1 1958 (1) Copies wanted . . . . .

**POVERTY OF PHILOSOPHY**

By Karl Marx

18.8 X 12.8 cm. 178 pp. 10,000 copies

Price: 60 won

To be issued: 3rd quarter, 1958

This is one of the masterpieces of Marx, explaining the basis of scientific socialism.

In this book Marx exposed the reactionary theory of Proudhon and proved scientifically the historical inevitability of socialist revolution and indicated the great role of the proletariat for liberation.

He formulated the law of the relations of production in conformity with the productive forces.

No. 1 1958 (2) Copies wanted . . . . .

**HOLY FAMILY**

By Marx and Engels

18.8 X 12.8 cm. 250 pp. 10,000 copies

Price: 75 won

To be issued: 1st quarter, 1958

This is a work written by Marx and Engels in their early days.

They gave a criticism to the ideological world outlook of Hegel and Bauer, nearly accomplishing the unity of materialism and dialectics.

They established a basic theory of proletarian ideology — new revolutionary world outlook — by presenting the question of decisive role of the proletariat in the process of development of history, defining the historical task of the world proletariat and showed the historical process of forming the dialectic materialism.

No. 1 1958 (3) Copies wanted . . . . .

#### **ON THE PARTY UNITY**

By V. I. Lenin

18.8 X 12.8 cm. 106 pp. 15,000 copies

Price: 30 won

To be issued: 2nd quarter

The Tenth Congress of the Communist Party of the U.S.S.R. held in March 1921 smashed such anti-Party sectarians as Trotskyites, Bukhalinites, "Workers' Opposition," "Democratic Centralists," etc., and adopted the special resolution on Party unity.

This booklet contains nine speeches delivered by Lenin at the Tenth Congress; reports, draft of resolutions, etc.

This will help to acquaint the readers with questions of Party unity, the struggle against sectarians and the strengthening dictatorship of the proletariat.

No. 1 1958 (4) Copies wanted . . . . .

#### **PARTY WORK AMONG THE MASSES**

By V. I. Lenin

18.8 X 12.8 cm. 150 pp. 15,000 copies

Price: 45 won

#### **LENIN: COMPLETED WORKS, Vol. XVIII**

18.8 X 12.8 cm. 700 pp. 12,000 copies

Price: 210 won

To be issued: 1st quarter, 1958

This book contains the articles written by Lenin in the period from April 1912 to March 1913 — the period of a new revolutionary upsurge in Russia.

The articles give an analysis of the social, economic and political conditions for the further growth of revolution in Russia, clearly outline the tactics of the Bolshevik Party in the period of new upsurge of the revolution and expose the anti-revolutionary character of the liberal bourgeoisie and the treacherous activities of the Menshevik, liquidationists, Trotskyites and "Peredov" group in the labour movement.

Among the articles are "Revolutionary Upsurge", "Political Parties in Russia", "Concerning the Present Position of the Russian Social-Democratic Party", "Liquidationists in Opposition to the Party", "How Does P. V. Akselod Expose the Liquidationists," and so on.

The articles "Real Nature of the Agrarian Question in Russia", "Comparison of the Agrarian Program of Stolipin and that of the Narodniks" and others — all these disclose the true colour of Stolipin's agrarian program.

This book also includes a number of the articles relating to the tactics of the Bolsheviks in the elections and parliament.

No. 1 1958 (6) Copies wanted . . . . .

**LENIN: COMPLETED WORKS, Vol. XIX**

18.8 X 12.8 cm. 670 pp. 12,000 copies

Price: 210 won

To be issued: 1st quarter, 1958

This book contains Lenin's writings in the period of new upsurge of the revolution in Russia — March-December 1913.

It includes the articles published by Bolshevik publications — newspapers "Pravda" and "Nash Petty" and magazine "Prochnie".

In "Three Sources and Component Parts of Marxism-Leninism" and a number of other articles Lenin developed the basic problems of Marxist theory, and in "On the National Program of the Social-Democratic Party" and other articles he outlined the Bolshevik Party's program on the national question.

In addition, this work includes the articles dealing with the questions of struggle for consolidating the Bolshevik Party and the unity of the working class, the maturity of political crisis in Russia, the leading role of

the proletariat in revolution; as well as articles exposing the anti-revolutionary character of the liberal bourgeoisie.  
No. 1 1958 (7) Copies wanted . . . . .

**LENIN: COMPLETED WORKS, Vol. XX**

18.8 X 12.8 cm. 690 pp. 12,000 copies

Price: 210 won

To be issued: 1st quarter, 1958

This volume contains the writings between December 1913 and August 1914. Its greater part is devoted to the struggle of the Bolsheviks against the opportunists in the Russian and international labour movement — Liquidationists, Trotskyites, "Peredov" group, "Social Revolutionists" and the opportunists of the Second International.

In this book are included such important articles as "Collapse of the 'August' Bloc", "Undermining of the Unity under Cover of the Call for the Unity", "Narodnism and Liquidationism as Factors of Collapse in the Labour Movement", "Ideological Struggle in the Movement", "Haste Leads to Failure", "Concerning the Letter of Kautsky" and others. "Critical Opinion on the National Question" and "National Self-Determination" laid the foundation of the Bolshevik program on the national question and developed it.

In "Decisions of Latvian Marxists and Liquidationists" and "Reply to an article carried by the 'Leipziger Volks-Zeitung'" Lenin exposed the liquidationists, who distorted the Party decisions and concealed the objective data on contributions for the Marxist newspapers and Liquidationist ones. And also this book contains "Peasants and Wage Labour", "Self-Management in Rural Villages" and "Land Question in Russia."

No. 1 1958 (8) Copies wanted . . . . .

**LENIN: COMPLETED WORKS, Vol. XXI**

18.8 X 12.8 cm. 600 pp. 12,000 copies

Price: 180 won

To be issued: 3rd quarter, 1958

This book contains articles written by Lenin from August 1914 to December 1915. He held aloft the banner of struggle against the imperialist war and international social chauvinism and established the foundation of theory and tactics of the Bolshevik Party on war, peace and revolution.

"Duty of the Revolutionary Social-Democrats in the European War" and a number of articles deal with the

evaluation of war and the tasks of a proletarian Party and international labour movement. Several articles including "Collapse of the Second International" disclose the international social chauvinists and middle-of-the-road elements and analyse the cause of ruin of the Second International.

Article "Russian Judakum Group" and others deal chiefly with the social chauvinism in Russia. In "On the Slogan of the European United States" Lenin deals first with the possibility of victory of socialism in one country, and in the "Karl Marx" he describes in a concise way Marx's theory.

**LENIN: COMPLETED WORKS, Vol. XXII**

18.8 X 12.8 cm. 500 pp. 12,000 copies

Price: 150 won

To be issued: 4th quarter, 1958.

This volume contains the works written by Lenin in the period from December 1915 to July 1916.

In "New Material concerning Law of Capitalist Development in Agriculture, Part I" and "Capitalism and Agriculture in the U.S.A." Lenin criticises the "non-capitalist evolution" of agriculture in the capitalist society, which is the anti-Marxist theory. And a number of articles are devoted to the slogans of the Bolsheviks and tasks of the proletariat in the period of imperialist war of 1914-18 and to the exposure of the social chauvinists.

This volume includes also author's excellent work "Imperialism as the Highest Stage of Capitalism" in which Lenin gave a Marxist analysis of imperialism as the last stage of capitalism and graphically illustrated that "imperialism is the eve of the socialist revolution of the proletariat." This new socialist theory by Lenin on revolution further enriched and developed Marxism-Leninism.

The theme "Socialist Revolution and National Self-Determination", "Summing-up of Discussions on Self-Determination", "Concerning Yumus's Pamphlet", etc. are included also in this volume.

Other articles deal with Lenin's struggle for consolidating the proletarian Party and solidifying the unity and solidarity of the internationalists in the labour movement against the Russian and European social chauvinists.

No. 1 1958 (10) Copies wanted . . . . .

**LENIN: COMPLETED WORKS, Vol. XXIII**

18.8 X 12.8 cm. 530 pp. 12,000 copies

Price: 160 won

To be issued: 4th quarter, 1958

In this volume are included the works written in Switzerland from August 1916 to March 1917.

The greater part of this volume is dedicated to the struggles of Lenin and the Bolsheviks against the war and policy of the imperialists.

To this category belong "Conflicts between Imperialism and Socialism", "Bourgeois Pacifism and Socialist Pacifism," and so on.

In his famous article "War Program of Proletarian Revolution" Lenin developed his new theory on the possibility of victory of socialism in one country and put forth the theory on the just war and unjust war on the basis of materials concerning imperialist capitalism described in his "Imperialism as the Highest Stage of Capitalism."

In "Tasks of Leftist Zimmer Valt Group within the Swiss Social-Democratic Party", "Principled Position on the Question of War", "On Setting Forth of the Question of National Defence", and a set of other articles Lenin defined the tasks of revolutionary Social-Democrats in the imperialist war period (1914-18).

In "On the Slander on Marxism and 'Imperialist Economism'" and other articles Lenin denounced the anti-Marxist position of the Bukhalin-Pyatakov anti-Party group and developed the Bolshevik programme on national question in the new historical conditions, and in the "Statistics and Sociology" he defined the role of the national question in the international labour movement.

In the "Letter from a Far-away Country", "Revolution in Russia and Tasks of Workers of all Countries" and others he gave an analysis of the mutual relations of forces between the classes and showed the prospects for transition from bourgeois revolution to socialist revolution.

No. 1 1958 (11) Copies wanted . . . . .

**LENIN: COMPLETED WORKS Vol. XXX**

18.8 X 12.8 cm. 700 pp. 12,000 copies

Price: 210 won

To be issued: 3rd quarter, 1958

This volume contains writings between September 1919 and April 1920.

This book's contents consist chiefly of articles, reports and speeches on the defence of the country, construction of the Soviet state, consolidation of the Party ranks, etc.

In the speeches made before the labouring people Lenin called on them to concrete the unity between the front and the rear, the Red Army and take active part in the rehabilitation of national economy and the management of the State, and educated them in the spirit of staunchness, heroism, self-sacrificing and iron discipline, and with the faith in victory and their might.

In a number of articles Lenin developed the theory on dictatorship of the proletariat. Comparing Soviet democracy with bourgeois democracy, he exposed the real nature of European Social-Democrats, Mensheviks and Social Revolutionists who advocated dictatorship of the bourgeoisie under cover of "pure democracy."

A number of articles deal with essence of the policy toward Soviet nationalities, socialist transformation of the country, forms of socialist labour in industry and agriculture, electrification of Russia, and necessity of planning.

This book gives much space to following questions: organization of management of economy; increasing workers' origin in the state organs, and struggle against bureaucratism. In these articles Lenin emphasized the strengthening of one-man accounting system and labour discipline, and the necessity of raising responsibility in management of industrial enterprises.

Besides, this volume includes: article on the women's question; documents in which Lenin, leader of international labour movement, educates communists in the spirit of fidelity to proletarian dictatorship and proletarian internationalism; and questions concerning the foreign policy of the Soviet State.

No. 1 1958 (12) Copies wanted . . . . .

**LENIN: COMPLETED WORKS Vol. XXXI**  
18.8 X 12.8 cm. 700 pp. 12,000 copies  
Price: 210 won

To be issued: 4th quarter, 1958

This book contains writings of the period of April-December 1920, the period when the main forces of armed interventionists were eventually routed.

Its contents consist chiefly of articles on defence of the Soviet Republic, tasks of socialist construction, the question of international communist movement.

In his "'Left-wing' Communism, an infantile disease" Lenin further developed the theory on proletarian revolution and proletarian dictatorship along with strategy and tactics of Leninism on the basis of experiences gained in the struggle of the Bolsheviks, revolutions in Russia and in several years of existence of the Soviet State, and at the same time he stressed the international significance of the October Socialist Revolution and the revolutionary experiences of the Bolshevik Party.

This volume gives considerable space to documents in connection with preparations for the Second Congress of the Comintern, and reports and speeches at the congress. In these documents the programmatic, organizational and strategic principles are outlined.

This book also includes a number of important works including the "Tasks of the Youth League."

No. 1 1958 (13) Copies wanted . . . . .

**LENIN: COMPLETED WORKS Vol. XXXII**

18.8 X 12.8 cm. 700 pp. 12,000 copies  
Price: 210 won

To be issued: 4th quarter, 1958

This volume contains the writings done in the period from December 1920 to August 1921. These writings show Lenin's guidance to the Party and government work in the transitional period of the war-time communism to NEP.

Much space in this book is occupied by Lenin's reports, speeches and draft decisions at the Tenth Congress of the Russian Communist Party (Bolshevik).

These are extremely important documents on the activities of Lenin who struggled for the consolidating of the Party unity, worker-peasant alliance and proletarian dictatorship in the new economic conditions, giving a blow to anti-Party sectarians of every description including Trotsky.

Besides, in "Concerning Trade Unions," "The Present Time and Trotsky's Errors," "The Crisis of the Party", etc. Lenin waged the uncompromising struggle against the "labour opposition", "democratic centralists" and "leftist communists" who, denying the Party's leading role in the Soviets and trade unions, tried to destroy the Party and to undermine proletarian dictatorship. And he explained the forms and methods of Party work among the masses in the new condition of peaceful rehabilitation of national economy, and outlined the tasks and role of

the trade unions, schools of communism, in socialist construction.

This book also includes articles on the following questions: NEP ensuring the possibility of laying the foundation of socialist economy, planned national economy and organization of national economy; consolidating the state organs.

of material, consciousness which is function of highly organized cerebrum, active role of consciousness, and practical and theoretical significance in our Party activity.  
No. 1 1958 (25) Copies wanted . . . . .

**DIALECTICAL MATERIALISM**

By Molis Kolkns  
20.9 X 14.8 cm. 450 pp. 20,000 copies  
Price: 135 won

To be issued: 4th quarter, 1958

This is a translation of the work of Molis Kolkns, a British Marxist.

It deals Materialism in the 1st chapter, "historical materialism" in the 2nd and "epistemology" in the 3rd.

The author explains the basic principles for the masses with some practical examples on the basis of the materials for lecture organized by the British Communist Party for the popular masses and the teaching materials used in the Party schools.

He gives a clear picture of the bourgeois ideology at the present time when the peaceful competition with capitalist countries is being promoted.

The author emphasizes that this book will help the readers to have the understanding of correct socialist views compared with those in the capitalist countries. This book will be useful for those who study Marxist philosophy.

It deals with the policy of the Party and Government  
for the construction of the cultural rural villages as a  
component of the socialist transformation of rural villages.

Making a comparison between the rural villages in the  
past and the present this book describes in an interesting  
and simple manner how to construct beautiful socialist  
rural villages based on the Cabinet Decision No. 105 for  
enjoying a happy and cultural life.

This may help in working out the ten-year plan for the  
construction of rural villages.

**REVOLUTIONARY MASS VIEW-POINT OF OUR PARTY**

By Hu Bin

18.8 X 12.8 cm.

44 pp.

50,000 copies

Price: 15 won

To be issued: 3rd quarter, 1958

This pamphlet deals with problems of revolutionary mass view-point of our Party on the basis of Marxism-Leninism. It explains theoretically co-relation between our Party and popular masses, and relation between the masses and classes. At the same time it puts forth the establishment of revolutionary mass view-point of cadres and the improvement of their style of work. It consists mainly of the problems of the attitude that they must assume in new circumstance—their correct approach toward the masses.

This booklet stresses that thanks to the correct policy of the C.C. of the Workers' Party of Korea and correct leadership of Comrade Kim Il Sung great results have been achieved in the fields of politics, economy and culture while overcoming bureaucraticism, formalism and dogmatism within the Party and establishing the correct style of work for the people. It relates graphically to the importance of establishment of mass line.
